How to Use this Book

INFORMATION on how to use a directory of this character would be superfluous. There are many men, however, who are every season asking themselves the question "What shall I wear?" and this space can perhaps be used in no better way than to advise such men that a satisfactory answer to the above question can be obtained by making a call upon Rochester's well-known and up to-date merchant tailor,

Fisk

whose patterns are invariably the swellest, and whose styles are the most artistic. He is always glad to impart imformation relating to the fashions, and you commit yourself to nothing in asking for it.

ROCHESTER HOUSE DIRECTORY

AND

FAMILY ADDRESS BOOK.

Names of residents and business houses are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side. When there are several families in one house, the families on the lower floor are given first, followed in regular order by the families upon the floors above. The streets are arranged in alphabetical order. On streets that are not numbered ciphers are used in place of a street number.

Business places are denoted by the street number printed in heavy faced figures. When a person's place of business and residence are at the same place, it is indicated by the use both of heavy faced figures for the street number and of the abbreviation h. at the end of the line.

ABBREVIATIONS.—*Al. alley; ave. avenue; b. boards; ct. court; e. east; fr. from; h. house n. north or near; pl. place; r. residence in rear; r. place of business in rear; rd. road; s. south; sq. square; st. street; ter. terrace; w. west; wd. ward.*

WE ARE AGENTS FOR

Pierce Great Arrow, Stearns, Stevens Duryea, Locomobile, Pope Waverley Electric

and Usually have a Few Bargains in Second-Hand Machines

ELECTRIC VEHICLES

WE make a specialty of taking care of Electric Vehicles, and solicit your patronage on the promise of exemplary service in not only keeping machines clean, but by paying special attention to caring for and charging the batteries. The only argument against electric machines is battery trouble, and nine-tenths of this is due to improper care and careless charging, which can be entirely eliminated. This department in both of our stations is under the supervision of experts on storage batteries and electric motors.

TELEPHONE YOUR TROUBLES

FOR the convenience of those who have trouble while out with their machines anywhere within the county, we hold a grip full of tools, all sizes of tires, a tow rope and a wrecking car in readiness. Almost every farm house has a telephone. You can save time by using it. We will come to your rescue at any hour day or night, and if your troubles are too great for quick road repair, the tow rope will get you home.

REPAIR DEPARTMENT

IN this department we take special pride, and have spent thousands of dollars to install the finest machinery obtainable, and we are prepared to make in our own shop any part of a gasoline engine, no matter what kind, thus avoiding the great loss of time usually experienced in ordering parts from a factory.

We employ skilled workmen and experienced machinists, and with the advantages of the latest and most accurate machinery we are able to manufacture any part that is needed, from an axle or crankshaft to the most intricate part, just as good and in many cases better than the original. If you cannot get what you want elsewhere come to use. If we haven't it in stock we can make it on short notice.
