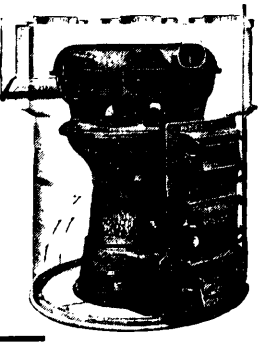
Mr. Architect, Contractor and Ultimate Consumer:

Your attention is respectfully directed to our latest Furnace, the "NORMAN" Equator, Low Down.



The "NORMAN" Equator Furnace is especially adapted for flats and low cellars.

The "NORMAN" Equator Furnace is Rochester made; hence the best that can be produced.

The "NORMAN" Equator Furnace is moderate in price and built especially for your needs.

Rochester needs all of your business to aid in its progression. Why then allow out of town furnaces to be installed in your houses?

Remember the name "NORMAN" and insist on a home made Furnace

How to Make Your Filing System Make Money

MOST people think of a filing cabinet as a place to *put* papers. Whereas it ought to be a place to *find* them. Get the difference? You could store thousands of letters in a box in the loft. You might be sure they were safe from harm. But *you couldn't find one* of the letters again in a week.

In this day of strenuous modern business—it is the seconds it takes to *find* a paper that tell the tale of perfect system or lack of it. Security alone in filing is not enough—you need *facility* as well.

And you need perfect system in a *small* office even more than in a *large* one. Time lost in details is *your* time—*expensive* time—in a small office. Not the time of some inexpensive clerk. And this time—*your* time—is all the time you have to build your business larger.

Don't forget that your system is either helping you *make* a business success or *keeping you from it*. And how much it helps you, depends entirely on how thoroughly it is adapted to your needs.

In Rochester we have competent representatives *who will call* and see you at any time. You are perfectly free to ask them for System Service Information without obligation on your part.
