The Library Board consists of seven members, five appointed by the Mayor for a term of five years, together with the Mayor and the President of the Board of Education as members *ex-officiis*.

The library has as yet no central collection of books. The temporary administration offices and library workrooms are in Building No. 9 at Exposition Park, second floor. On the first floor is Exposition Park Branch Library, the first of a system of branch libraries which the Board is planning to establish, some in school buildings, some in rented quarters, etc. Numerous small collections of books will be deposited in various parts of the city and circulated among the people of the neighborhood.

The branch libraries will contain chiefly popular books for home use. There will be in each branch a collection of dictionaries, cyclopedias, and other frequently used reference books and current periodicals. Co-operative relations will be established with the other libraries in the city for economy and efficiency in supplying the book needs of the people.

Each branch will have a department for children, which will be supplied with books specially chosen for their merit and suitability. In these departments the usual activities of children's work such as story hours, reading clubs, etc., will be inaugurated.

The grade libraries of the public schools, consisting of about 12,000 volumes, have been put in charge of the Public Library to be managed for the benefit of the schools. These grade libraries consist of 35 to 50 volumes each of general children's literature, and are circulated among the children in the schools for home use.

The City appropriation for library purposes in 1911 was $10,000; in 1912 it was $15,000, and in addition a special appropriation of $15,000 for altering Building No. 9 and equipping it for use as headquarters and as the first branch library.

The True Story of a Rochester Industry

St. Paul St. Plant, Rochester, N.Y.

Gates Plant. Rochester, N.Y.

"Y and E"

Filing Systems

AT the northwest corner of Exchange St. and the Erie Canal, Philip H. Yawman and Gustav Erbe started the little one-room metal specialty shop which in 33 years has grown to be the largest concern in the world manufacturing filing equipment.

Messrs. Yawman and Erbe were mechanics—rich in experience but with little capital. For quite a time they struggled with indifferent success, until one day they contracted to make all Shannon Files, so widely used from that day to this. That event was the turn of the tide and marked the entrance of Yawman & Erbe into the filing equipment business.

New and larger quarters were secured on South Ave. A few years more, and additional room was again necessary. This time the firm built its own factory on St. Paul St., opposite Platt.

Together with a new plant in the suburb of Gates, it turns out a quality line of more than 3,000 items. (See over). More than three million pounds of freight are handled each month.

Rochester Made—Means Quality

Mr. Architect, Contractor and Ultimate Consumer

Your attention is respectfully directed to our latest Furnace, the "NORMAN" Equator, Low Down.

The "NORMAN" Equator Furnace is especially adapted for flats and low cellars.

The "NORMAN" Equator Furnace is Rochester made; hence the best that can be produced.

The "NORMAN" Equator Furnace is moderate in price and built especially for your needs.

Rochester needs all of your business to aid in its progression. Why then allow out of town furnaces to be installed in your houses?

Remember the name "NORMAN" and insist on a home made Furnace

SCALP SPECIALIST

No Hair, No Pay

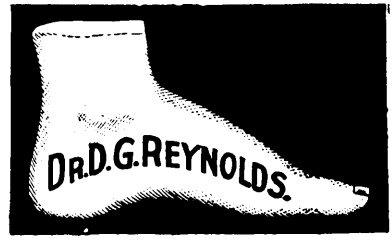
There is not one case in a hundred where the hair follicles on a shiny bald head are really dead.

I have discovered a method of restoring them to activity and actually growing hair on heads that have been perfectly bald for ten years to twenty years and more.

I have done this for myself and can for you. I am so sure of it that I ask no pay unless I get results.

I grow eyebrows and eyelashes as easily, because I know how to do these things. I stop falling hair at once, relieve itching scalp and stop dandruff.

Superfluous hair removed, also facial blemishes.



I have special apparatus built for me for violet ray treatment, vibratory treatments, massage, vacuum work, permanent hair waving, etc.

Our New Housemate "Princess" Style "Housemate" Central Needle Sewing Machines

Housemate Central Needle Idea

Note the needle is central with the opening between the two open doors and right in the center of the table. On other machines the needle is 4½ inches to the left of the center and the left machine leg prevents you from moving over to the left to line your body up with the needle. There is only one way to sew sitting upright and that is to use a "Housemate" Central.

"Housemate" Central Needle Sewing Machines

The Central Needle Feature is created solely by an entirely new — special cabinet construction — fortunately permitting the placing of the stand wheel outside of the machine leg.

The keynote of my business is service. I work for the advertiser alone. I am backed by an organization of capable workers. Together we do work for you quicker, more efficiently and at less cost to you than you can do it for yourself. That is why we continue to exist as an Advertising Agency. We are self contained—We do our work ourselves.

WHAT WE DO

We write advertisements, illustrate them and place them in any Newspaper, Magazine, Trade Journal in any city or town anywhere.

We write all kinds of business literature and illustrate and print it if desired.

We have the best equipped plant in the city for the production of Letters in quantity.

We do Addressing, Mailing, etc., and furnish lists.

We have our own Art Department to make Commercial Illustrations, Engravings, Electros, Etc.
