Increase from 1914 to 1915.....	5,200

ROCHESTER STREET DIRECTORY.

COPYRIGHT 1915, BY DREW ALLIS COMPANY, ROCHESTER, N. Y.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 501 comes: look at State street and you find that Jay street runs from 473 left side, and Smith street from 559, showing that No. 501 comes on the left side of State street between Jay and Smith streets.

Or, going up Main street West, suppose it is wished to take a cross street so as to call at 314 Troup street: on examination (see Troup), you find that 306 Troup is at the corner of Reynolds street; hence, by passing from Main street West through Reynolds street to Troup, you are near the desired number 314. Wheu streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Street numbers begin at the end of the street nearest the centre of the city. Even numbers are upon the north or east side of streets. Odd numbers are upon the south or west side of streets.

Total area of the city is about 16,000 acres.

Number of streets and alleys in city, 1,418. Total length of streets, about 360 miles. Improved streets, 238½ miles; unimproved, 121¼ miles.

● Indicates street car lines. When placed after the name of a street it shows that the car line runs through that street. When placed after a street beginning, ending or intersecting, it denotes cars on such intersecting street. For example, the ● connected with Aberdeen street shows cars on Genesee street but not on Aberdeen street or Post avenue. At Allen street cars run through the street, also on connecting streets, State and Plymouth avenue North.
