Manufacturing FURRIERS

All the newest and latest styles in Coats and Furs. We have a wonderfully large and varied stock in large quantities. In our many years experience in catering to the best patrons, our present line is by far the most attractive and complete of any we have ever shown.

The novelties for Furs this season are Blue, White, Sitka and Cross Fox. Alaska Sable is to be one of the most desirable Furs and will be extremely stylish in the round muffs and new stoles. The different Foxes are made up in the newest, soft, double fur effects and will be the latest style. Automobile Furs in great variety.

Cold Storage

Our Cold Storage system is the only perfect one in the city for the storage of Furs. Absolutely dry, cold air at a perfectly even temperature keeps your Furs beautifully glossy and perfect. The temperature cannot vary.

ROCHESTER HOUSE DIRECTORY

AND

FAMILY ADDRESS BOOK.

Names of residents and business houses are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side. When there are several families in one house, the families on the lower floor are given first, followed in regular order by the families upon the floors above. The streets are arranged in alphabetical order. On streets that are not numbered ciphers are used in place of a street number.

Business places are denoted by the street number printed in heavy faced figures. When a person's place of business and residence are at the same place, it is indicated by the use both of heavy faced figures for the street number and of the abbreviation h. at the end of the line.

ABBREVIATIONS.—*Al. alley; ave. avenue; b. boards; boul, boulevard; ct. court; e. east; fr. from; h. house; n. north or near; pl. place; r. residence in rear; r. place of business in rear; rd. road; s. south; sq. square; st. street; ter. terrace; w. west; wd. ward.*

MONEY DEPOSITED during the first three business days of any month draws interest from the first of the month if left until the quarter days. Quarter days being the first three business days of March, June, September and December. Deposits may be withdrawn on the last three business days of a quarterly period without loss of interest.

THE RATE OF INTEREST is determined at the close of each six months from the actual earnings for that period and at the highest rate which such earnings will in the best judgment of the Board of Trustees allow.

THE DIVIDEND paid for the six months ending June 1, 1915, was at the rate of four per cent. per annum.

INTEREST IS CREDITED to accounts December 1st and June 1st, and if not withdrawn will bear interest as a deposit.

THE PASS BOOK must be presented for depositing or withdrawing.

MONEY TO LOAN on bond and mortgage.

MORTGAGE INTEREST becomes due May 1st and November 1st.

THE BANK is open daily, holidays excepted, from 9 A. M. to 3 P. M. except Saturdays, from 9 A. M. to 12 o'clock noon. Open Monday and Saturday evenings from 7 until 9 o'clock to receive deposits.

THE CITY DIRECTORY

Indispensable to those who know what it contains

It will answer almost any question that can come up regarding inhabitants, institutions or business interests of the city.

To know how to use it, and to have it at hand for ready reference is a great aid to efficiency.

Special Descriptions of many of the more progressive houses are there because it is recognized as the logical place to look for them.

Refrigeration and Its Relationship to the Good Meal

The success of every Hotel and Restaurant Manager, as well as every Club Steward, depends materially upon capability for setting up a GOOD MEAL.

Whether meals are uniformly good depends in a large measure upon refrigeration methods. The ice box method cannot produce temperatures below a certain point and certain food materials requiring a lower temperature deteriorate in an ordinary ice box and the quality of the meals into which they enter is very unsatisfactory.

Right Refrigeration Methods the Remedy

And refrigeration methods to be right must be such as to enable the operator to secure, unfailingly, the varied temperatures which varied food materials require in order that they may find greatest favor with those to whom they are served.

The refrigeration story is a long one, and a serious one, and cannot be treated fully in the space at our disposal, but, the fact that we have saved others from 20% to 40% should prompt you to

PHONE US

Our engineers will gladly investigate your particular refrigeration problem and their recommendations will be backed by our guarantee.
