THE CIVIL SERVICE.

For State Board of Commissioners, see page 50.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments and confidential subordinates), must be filled from applicants who have successfully passed an examination by a Board of civil service examiners, or from registered list of laborers.

A Board consisting of three members is appointed by the mayor, who also appoints the secretary and chief examiner.

Whenever a position is to be filled, the examining Board will notify the applicants on record, to appear for examination, and appointments must be made by the appointing power from the list prepared by the commission.

Soldiers or sailors who served in the war of the rebellion, having any standing on the list, have the preference. Soldiers and sailors of Spanish-American war have no preference in appointment.

ROCHESTER STREET DIRECTORY.

COPYRIGHT 1917, BY DREW ALLIS COMPANY, ROCHESTER, N. Y.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 501 comes: look at State street and you find that Jay street runs from 473 left side, and Smith street from 559, showing that No. 501 comes on the left side of State street between Jay and Smith streets.

Or, going up Main street West, suppose it is wished to take a cross street so as to call at 314 Troup street: on examination (see Troup), you find that 306 Troup is at the corner of Reynolds street; hence, by passing from Main street West through Reynolds street to Troup, you are near the desired number 314. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Street numbers begin at the end of the street nearest the centre of the city. **Even numbers** are upon the north or east side of streets. **Odd numbers** are upon the south or west side of streets.

● Indicates street car lines. When placed after the name of a street it shows that the car line runs through that street. When placed after a street beginning, ending or intersecting, it denotes cars on such intersecting street. For example, the ● connected with Adams street shows cars on Exchange street and Caladonia avenue but not on Adams street or Jefferson avenue. At Allen street cars run through the street. also on connecting streets, State and Plymouth avenue North.

Total area of the city is about 16,603 acres.

Number of streets and alleys in city, 1,488. Total length of streets, about 401 miles.

REMOVALS.—*Against names showing removals from the city, the post office address is given; if into another State, both the post office and State are given.*

DEATHS.—*The date of death of all citizens whose names appeared in the Directory dying during the past twelve months, are recorded against the name in the present book. The same has been done each year since 1876, so that the several volumes of the Directory contain a mortuary list for that period, of great value for reference.*
