ABOUT ROCHESTER

"Know Your City"

ROCHESTER, with a population of 265,000 persons is distinguished in many ways. It is a city of rare beauty; it excels in many points of industrial production; it is prosperous; its living conditions approximate the ideal.

Rochester, covering 15,913 acres, has an assessed valuation of $231,701,909; a death rate of 14.51 per 1,000 population and a birth rate of 26.71 per 1,000 population. The tax levy in 1916 was $4,999,673 and the tax rate was $20.85. The tax rate in 1917 is $18.89.

Rochester has about 1,700 manufacturing establishments, which produce over 325 separate commodities, float an aggregate capital of approximately $43,784,000, and pay wages and salaries amounting to $43,784,000 annually. It is the world's headquarters for photographic goods and supplies; one of the largest shoe centers in the United States, having 56 factories with an annual output representing $17,500,000; prominent among the producers of high-grade men's clothing, with an annual output of $25,000,000.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world: the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It is a leader in telephone apparatus, paper box manufacture and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.

Rochester has five large parks and 25 small ones, containing 1,644 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park, along the Lake Ontario Shore contains 484 acres; Exposition Park has an area of 42 acres, contains eight large practical and beautiful buildings; the property is valued at $449,424.

Rochester is known as the City of Homes; more than 42 per cent of Rochester dwellings are owned by those who live in them, a distinction unequalled in any city of 250,000 or more persons east of the Rockies.

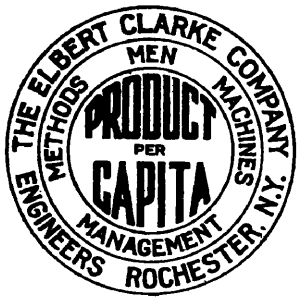
Rochester is located in the very heart of the richest agricultural country in New York state and the second richest in the United States in point of productiveness. The seven counties that naturally look to Rochester as a center have a population of over 700,000, and this represents a very prosperous buying public which does its trading in Rochester.

Rochester is in Monroe county, which ranks among New York state counties: first in total value of all farm crops, nursery stock, wheat and value of horses; second in apples and peaches; third in value of farm property, swine and poultry, and in the production of orchard fruits, pears, cherries, miscellaneous vegetables, oats, corn, potatoes, and beans; fifth in small fruits; seventh in alfalfa; twenty-eighth in area.

Rochester inventors take out more patents than are taken out in any other city in Western New York.

Rochester is only a night's ride to New York, Washington, St. Louis, Cincinnati, Toronto, Detroit, Cleveland, to cities as far east as Boston and Montreal and as far west as Chicago.

A circle drawn within a radius of 90 miles of Rochester embraces a population of over two million. A second circle, drawn within a radius of 750 miles, embraces a population of 70,000,000 or about 70 per cent of the total population of the United States, and also nearly 5,000,000 Canadians.



Rochester products sell everywhere in the civilized world, and everywhere their quality is recognized. "Rochester Made Means Quality."

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display advertising does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference Advertising places wherever people may look for you or your goods, information that will point to you like a signboard.

Your advertisement in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

How to make this Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. ***Put—"We are listed in the directory" in your copy.*** Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

To rely solely on personal knowledge

In doing business, is like groping with a lantern. A view of the whole field is given by the classified lists in this book.

Names in heavy type, under the headings, refering to a space in this section, make it possible to find quickly those who specialize in the line you are looking for.

Spaces in this section are devoted to more complete descriptions than possible under single headings, and save time and trouble in finding just what is wanted.

AJAX FURNACE

MADE IN ROCHESTER FOR 48 YEARS

IT IS all right to experiment with something that you can change if you don't like it. **Don't experiment with furnaces.** We have made furnaces in Rochester, N. Y., continuously for 48 years.

The AJAX Furnace

has been improved in details from time to time, but long ago it became a perfect working furnace with which no experimenting remains to be done.

There is an AJAX Furnace on nearly every street in Rochester, and you will not have to go more than a door or two from your house to find an AJAX owner. Ask him what he thinks of the AJAX. In selecting the furnace to heat your house go by the experience of others who have found the AJAX satisfactory.

GENERAL INSURANCE SERVICE

The important thing in insurance or the adjustment of claims in case of loss or accident is the service of your insurance agent. Judge us on our service record, by our prompt adjustments, our fidelity to clients' interests, on the recommendation of those we have served. Ability to give this exceptional service is the result of specializing in insurance—no side lines.

Give us the opportunity to state our case—**the same opportunity you expect others to give you**—and we will show you why we can serve you in the same satisfactory manner we serve others.

1916	363,084,218	1,505,464,984

The above increase is significant, and should be sufficient to warrant inquiry before insuring elsewhere.

The policies of the NORTHWESTERN embrace in one contract practically everything that is desirable in life insurance.

A Liberal Policy Liberalized

Old and New Policyholders Share Mutually

All 1917 policies provide that Paid-up and Extended Insurance values shall share in profits.

The above profit-sharing features are made "retro-active." Old patrons holding participating policies will receive the added benefits regardless of any contrary provisions in their policies.

Union Central patrons always assured the maximum of present and future service and benefits.

It is purely mutual in its organization; that is, the policy holders are the members and they manage the institution in their interest through the trustees and officers selected by them.

It grants every conceivable form of sound life insurance at the lowest sure rates; that is to say, at exact cost, there being no element of profit to the company in the contract.

National Advertisers Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the city directory. Put—***"See the city directory for our local agent"*** on all your advertising and see to it that he is listed under all the classifications of your line.

For Instance, Those looking for the Educator Shoes should be able to find them listed in the Business Section thus:

**Educator Shoes*
C. E. DUSTIN, agent 78 Main
—see page 537

Local Advertisers Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

How to make this Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. ***Put—"We are listed in the directory" in all your copy.*** Tie up your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

No More Night Work at the Office

Take home a Corona and finish up.

That's what hundreds of busy executives all over the country are doing—taking home their little six pound Corona to "finish up." Whether it be to lay out your sales plans for the coming month or to write "copy" for a form letter or advertisement the little Corona can be carried home in its neat black case as handily as a portfolio. And its work is perfect.

CORONA

The personal writing machine includes all important time saving features of the modern typewriter.

It's a pleasure to lay out your work or tabulate your results with a Corona. It is the fountain pen's natural successor.

The Rochester Iron Works

We do all kinds of light structural and ornamental work in iron and steel

While our plant is specially equipped to produce stair fire escapes of all types, including the Brazill Panic-Proof Fire Escapes, we furnish builders' iron work generally. For instance, we make sidewalk doors, fences, gates, gratings, grilles, trusses, tierods, elevator enclosures, brackets, iron stairs, marquees, flag poles, tennis backstops, and anything you wish in light structural work, and we repair and reconstruct any existing iron work. A telephone call will summon us to serve you.

Two things we make will interest you. To each we give the adjective name of "ROCHESTER," because they are of quality. ***The Rochester Automobile Turntable,*** and ***The Rochester Bird Bath.***

The Turntable is now well known. It is so perfectly balanced a little child can turn it, yet the heaviest truck cannot break it. The reinforced concrete top swings over a drain pit. You wash your car on the turntable moving it freely about to get perfect light. It is always ready to receive you and will swiftly swing you round ready to go on your way rejoicing. Let us give you printed plans and an estimate.

The Bird Bath is a reinforced concrete bowl supported on handsome steel scrolls. Every householder should provide water for the birds in summer and food in winter. You will like our bird bath, for it is different. It is to serve the birds the whole round of seasons. We can send you a picture of this bath if you like.
