Wholesale and Retail

Manufacturing FURRIERS

All the newest and latest styles in Coats and Furs. We have a wonderfully large and varied stock in large quantities. In our many years experience in catering to the best patrons, our present line is by far the most attractive and complete of any we have ever shown.

Large variety Automobile raccoon coats, both ladies' and gentlemen's. Hudson seal coats in all the fashionable styles, trimmed and plain. Novelties in Fur Sets made in different shades of wolves and foxes, Cross fox and blue fox, mole, squirrel, marten, skunk and all the other desirable furs.

Cold Storage

Our Cold Storage system is the only perfect one in the city for the storage of Furs. Absolutely dry, cold air at a perfectly even temperature keeps your Furs beautifully glossy and perfect. The temperature cannot vary.

ROCHESTER HOUSE DIRECTORY

AND

FAMILY ADDRESS BOOK.

Copyright 1917, Drew Allis Company, Rochester, N. Y.

Names of residents and business houses are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side. The streets are arranged in alphabetical order. On streets that are not numbered ciphers are used in place of a street number.

Business places are denoted by business being given.

When a person's place of business and residence are at the same place, it is indicated by business being given and abbreviation h. at the end of the line.

Street numbers are in ordinary type, room and floor numbers in Italic.

Where numeral follows name it indicates floor on which party may be found.

Abbreviations.—Al. alley; ave. avenue; b. boards; boul. boulevard; ct. court; e. east; fr. from; h. house; n. north or near; pl. place; r. residence or place of business in rear; rd. road; s. south; sq. square; st. street; sum. res. summer residence; ter. terrace; w. west; wd. ward.

MONEY DEPOSITED during the first three business days of any month draws interest from the first of the month if left until the quarter days, quarter days being the first three business days of March, June, September and December. Deposits may be withdrawn on the last three business days of a quarterly period without loss of interest.

THE RATE OF INTEREST is determined at the close of each six months from the actual earnings for that period and at the highest rate which such earnings will in the best judgment of the Board of Trustees allow.

DIVIDENDS have been paid at the rate of four per cent. per annum since Dec. 1st, 1907.

INTEREST IS CREDITED to accounts December 1st and June 1st, and if not withdrawn will bear interest as a deposit.

THE PASS BOOK must be presented for depositing or withdrawing.

MONEY TO LOAN on bond and mortgage.

MORTGAGE INTEREST becomes due May 1st and November 1st.

THE BANK is open daily, holidays excepted, from 9 A. M. to 3 P. M. except Saturdays, from 9 A. M. to 12 o'clock noon. Open Monday and Saturday evenings from 7 until 9 o'clock to receive deposits.

Chiropractor

Specialist in removing the cause of disease

If you can't brace up, fight disease, make good in home and in business, your nerve power is curtailed.

If any of the vital organs of the body are not fulfilling their mission, you can trace the trouble to lack of nerve energy—a compression of the supply cables. If you relieve this compression you relieve the trouble.

If you come to consult me, I will find the "cause"—give you the reasons—tell you how the trouble can be eliminated without drugs—without knives. The method is natural—it has to make good because only good can come from it. The cause of the disease is removed and health follows as a natural result.

Offices equipped with electrical apparatus including Therapeutic Lamp, Vibrator and Violet Ray.

Consultation, Spinal Analysis and First Adjustment Free.

Cook By Electricity

SAVES 20% OF YOUR FOODS 50% IN LABOR

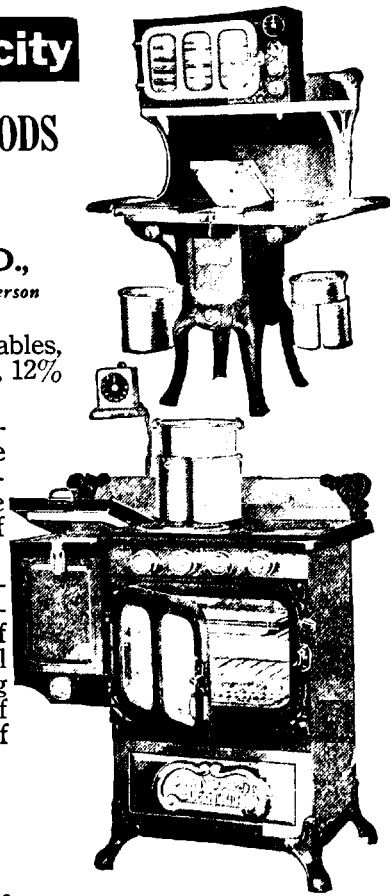

PHILIP B. HAWK, PH. D.,

Professor of Physiological Chemistry, Jefferson Medical College, Philadelphia

"Potatoes, most staple of vegetables, lose 18% of their mineral matter, 12% of the protein when boiled.

"Carrots lose 40% of their protein and 26% of their sugar; the boiling of cabbage robs that vegetable of over 30% of its soluble Carbohydrate, and about 50% of its mineral salts.

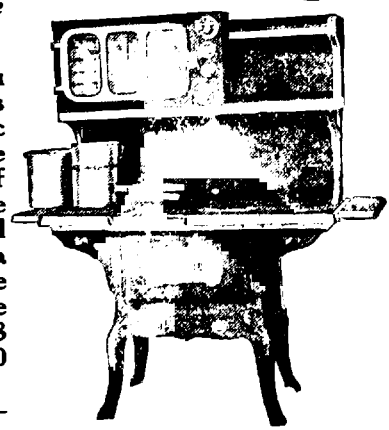

"These cooking losses are unfortunately not confined to vegetables, boiled meat loses 37% of its fats and 67% of its mineral matter; the ordinary roasting process lessens the food value of meat to the extent of 57% of these food substances."

The Standard Electric Ranges

Solve the Problem of these Tremendous Losses

Start to save the moment you begin to cook. Sixty eight meals will cost you approximately 30c each today—$20.40. With the range you are now using, 27% of all the nutriment and food value is evaporated—weigh your food before and after to prove it—a net loss to you of $4.00. The "Standard Electric Way" is the way that pays. You can cook 68 meals for $1.00 and save $4.00 in food value.

THE PENN MUTUAL LIFE

OF PHILADELPHIA

These Strong Motives Impel Men to Insure Their Lives

First: To provide for their families after death.
Second: To provide an income for their own old age.

WHY DON'T YOU DO IT?

THE PENN MUTUAL LIFE will provide a regular, continuous-until-death monthly income for wife or children, commencing at your death, the proceeds of which cannot be lost or dissipated; or for yourself in your old age.

Costs less than the kind of life insurance you are familiar with

Full Information upon request. No obligation imposed.

THE CITY DIRECTORY

Indispensable to those who know what it contains

It will answer almost any question that can come up regarding inhabitants, institutions or business interests of the city.

To know how to use it, and to have it at hand for ready reference is a great aid to efficiency.

Special Descriptions of many of the more progressive houses are there because it is recognized as the logical place to look for them.

Refrigeration and Its Relationship to the Good Meal

The success of every Hotel and Restaurant Manager, as well as every Club Steward, depends materially upon capability for setting up a GOOD MEAL

Whether meals are uniformly good depends in a large measure upon refrigeration methods. The ice box method cannot produce temperatures below a certain point and certain food materials requiring a lower temperature deteriorate in an ordinary ice box and the quality of the meals into which they enter is very unsatisfactory.

Right Refrigeration Methods the Remedy

And refrigeration methods to be right must be such as to enable the operator to secure, unfailingly, the varied temperatures which varied food materials require in order that they may find greatest favor with those to whom they are served.

The refrigeration story is a long one, and a serious one, and cannot be treated fully in the space at our disposal, but, the fact that we have saved others from 20% to 40% should prompt you to

PHONE US

Our engineers will gladly investigate your particular refrigeration problem and their recommendations will be backed by our guarantee.
