Chiropractor

Specialist in removing the cause of disease

President Rochester Branch New York State Chiropractic Association, Inc.
A graduate of Cornell University (4-year course) before taking up the study of Chiropractic.

Goiters, Stomach Disorders, Nervous Diseases a specialty. BLOOD PRESSURE tested at the office. URINAL ANALYSIS made at office or by mail.

If you can't brace up, fight disease, make good in home and in business, your nerve power is curtailed.

If any of the vital organs of the body are not fulfilling their mission, you can trace the trouble to lack of nerve energy—a compression of the supply cables. If you relieve this compression you relieve the trouble.

If you come to consult me, I will find the "cause"—give you the reasons—tell you how the trouble can be eliminated without drugs—without knives. The method is natural—it has to make good because only good can come from it. The cause of the disease is removed and health follows as a natural result.

Offices equipped with electrical apparatus including Therapeutic Lamp, Vibrator and Violet Ray.

References furnished from hundreds of satisfied patients.

Any of the following booklets will be gladly given to you, or sent by mail to any of your friends upon application. They are free.

AJAX FURNACE on every Street

IT IS safe to say that you could go on any street in Rochester and find at least one home heated with an AJAX Furnace. On many streets are rows of 20, 30, 50 houses, all heated by the AJAX. More homes in Rochester are heated by the AJAX Furnace than by any other make.

This remarkable distribution is not an accident. It is due to the very good reason that the majority of buyers have found an AJAX the most satisfactory. Don't experiment. Choose an AJAX, which has proved itself reliable and popular.

SERVICE

The important thing in insurance or the adjustment of claims in case of loss or accident is the service of your insurance agent. Ability to give this exceptional service is the result of specializing in insurance—no side lines.

Give us the opportunity to state our case—THE SAME OPPORTUNITY YOU EXPECT OTHERS TO GIVE YOU—and we will show you why we can serve you in the same satisfactory manner we serve others.

A Liberal Policy Liberalized

Old and New Policyholders Share Mutually

All 1917 policies provide that Paid-up and Extended Insurance values shall share in profits.

The above profit-sharing features are made "retroactive." Old patrons holding participating policies will receive the added benefits regardless of any contrary provisions in their policies.

Union Central patrons always assured the maximum of present and future service and benefits.

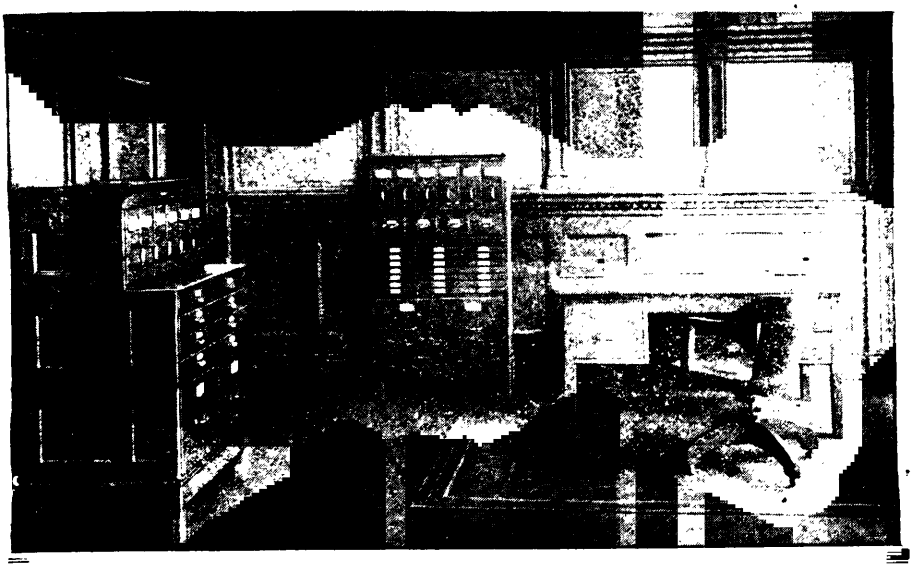
MONROE Calculating Machine

TRADE MARK REG U S PAT OFF.

Other machines handle adding and bookkeeping. The Monroe handles anything in figures—cost work, payroll, engineering formulae, invoices, percentages, prorating — all with equal ease — with machine speed—and with self-checking accuracy—no skilled operator required.



Comparative test will show the added advantage. Just call STONE 8343 or MAIN 2225.

Helps you—as all legitimate publicity helps, by keeping your name and business before the public. It shows that you are a live, enterprising factor in the city's life, sure of yourself and confident of your business ability and permanence and with such persons, people like to trade.

Helps your neighbor—for in the long run the success of one is the prosperity of all.

Helps your City.—As this book is on file in the centers of trade all over the U. S., it will be consulted by business men everywhere and the city's enterprise largely estimated by the volume of advertising done by its citizens.

How to make this Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. ***Put—"We are listed in the directory" in your copy.*** Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

Surely, the "acid test" which we apply to each of our vast range of *Tycos* Temperature Instruments is reason sufficient for their immense popularity. We face today in every field a discriminating public, a scrupulous, investigating public—and the extensive use of *Tycos* Instruments is a reliable guarantee of their service value.

Remember the fact that we are today producing more temperature instruments than any other concern on earth and then specify *Tycos* Instruments.

Only a few varieties of some 8,000 types and styles we make are listed below. We have an abundant supply of serviceable literature. Write for some today.

ABOUT ROCHESTER

"Know Your City"

ROCHESTER, with a population of 265,000 persons is distinguished in many ways. It is a city of rare beauty; it excels in many points of industrial production; it is prosperous; its living conditions approximate the ideal.

Rochester, covering 15,913 acres, has an assessed valuation of $274,289,129; a death rate of 15.30 per 1,000 population and a birth rate of 26.71 per 1,000 population. The tax levy in 1918 was $5,934,977 and the tax rate was $21.66.

Rochester has about 1,700 manufacturing establishments, which produce over 325 separate commodities, float an aggregate capital of approximately $150,790,000, and pay wages and salaries amounting to $43,784,000 annually. It is the world's headquarters for photographic goods and supplies; one of the largest shoe centers in the United States, having 56 factories with an annual output representing $17,500,000; prominent among the producers of high-grade men's clothing, with an annual output of $25,000,000.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It is a leader in telephone apparatus, paper box manufacture and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquartes of the nursery business of the United States.

Rochester has five large parks and 25 small ones, containing 1,644 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 484 acres; Exposition Park has an area of 42 acres, contains eight large practical and beautiful buildings; the property is valued at $449,424.

Rochester is known as the City of Homes; more than 42 per cent of Rochester dwellings are owned by those who live in them, a distinction unequalled in any city of 250,000 or more persons east of the Rockies.

Rochester is located in the very heart of the richest agricultural country in New York state and the second richest in the United States in point of productiveness. The seven counties that naturally look to Rochester as a center have a population of over 700,000, and this represents a very prosperous buying public which does its trading in Rochester.

Rochester is in Monroe county, which ranks among New York state counties: first in total value of all farm crops, nursery stock, wheat and value of horses; second in apples and peaches; third in value of farm property, swine and poultry, and in the production of orchard fruits, pears, cherries, miscellaneous vegetables, oats, corn, potatoes, and beans; fifth in small fruits; seventh in alfalfa; twenty-eighth in area.

Rochester inventors take out more patents than are taken out in any other city in Western New York.

Rochester is only a night's ride to New York, Washington, St. Louis, Cincinnati, Toronto, Detroit, Cleveland, to cities as far east as Boston and Montreal and as far west as Chicago.

A circle drawn within a radius of 90 miles of Rochester embraces a population of over two million. A second circle, drawn within a radius of 750 miles, embraces a population of 70,000,000 or about 70 per cent of the total population of the United States, and also nearly 5,000,000 Canadians.

Rochester products sell everywhere in the civilized world, and everywhere their quality is recognized. "Rochester Made Means Quality."

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.
