An Apology With Extenuating Circumstances

The stress of war has had it's effect this year in the work of compiling the City Directory. Some of our people, trained for years in our particular work have gone to serve our Country. Others have been attracted to other work. Need for extra supervision, because of the employment of new people, made it take longer to do the work.

We apologize for the delay in getting this issue to you, but feel that you will recognize it was better to insure the usual standard of excellence by exercising even greater vigilance.

War has brought many changes to Rochester and we have recorded these, both as to individuals and business houses. There probably has been no period in our National history when more changes have occurred in the life and movement of the people as a whole. It is necessary that correct information be quickly available concerning individuals and business houses for those who, as individuals and business houses, require it. The necessity, however, has become a vital one from the standpoint of the City, County, State and National need in these times of conservation and distribution of information.

The checking up of resources in man power and woman power: The availability for work for war purposes, of a community's manufacturing facilities: The city's institutional and educational equipment; all of these and more must be carefully listed and the information readily available.

The City Directory becomes the base of all efforts in Liberty Loan, Y M. C. A., Red Cross and other drives. It is the first reliance of all those whose duty it is to properly cover the coal, food and other campaigns. It is the one sure means of measuring an entire city's personnel. The list of organizations given in the Directory furnishes the knowledge of an efficiently ready power for good work. Their officers, as named in connection with these organizations stand in the first line for important and vital work for their City, State and Nation. The men who head our business concerns, as shown in the City catalogue are easily measured for the place in which each can serve most effectively.

Our responsibility in these times has been emphasized in almost daily calls for new information that only we seem able to supply. We feel any lack of care through haste or lack of proper supervision, would be inexcusable. In the hope, then, that this new edition will meet all your needs and with an assurance to you that we have not spared any effort to make it complete, we submit the result of our labors with confidence.

Total length of distributing pipes, in city, of both systems, about 448 miles.

Conduit I consists of 9.8 miles of 36-inch, and 3 miles of 24-inch wrought-iron riveted pipe, and 15.5 miles of 24-inch cast-iron pipe; total length of conduit I is 28.3 miles.

THE CIVIL SERVICE.

For State Board of Commissioners, see page 50.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments and confidential subordinates), must be filled from applicants who have successfully passed an examination by a Board of civil service examiners, or from registered list of laborers.

A Board consisting of three members is appointed by the mayor, who also appoints the secretary and chief examiner.

Whenever a position is to be filled, the examining Board will notify the applicants on record, to appear for examination, and appointments must be made by the appointing power from the list prepared by the commission.

Soldiers or sailors who served in the war of the rebellion, having any standing on the list, have the preference. Soldiers and sailors of Spanish-American war have no preference in appointment.

ROCHESTER STREET DIRECTORY

COPYRIGHT 1918, BY DREW ALLIS COMPANY, ROCHESTER, N. Y.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 501 comes: look at State street and you find that Jay street runs from 473 left side, and Smith street from 559, showing that No. 501 comes on the left side of State street between Jay and Smith streets.

Or, going up Main street West, suppose it is wished to take a cross street so as to call at 314 Troup street: on examination (see Troup), you find that 306 Troup is at the corner of Reynolds street; hence, by passing from Main street West through Reynolds street to Troup, you are near the desired number 314. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Street numbers begin at the end of the street nearest the centre of the city. **Even numbers** are upon the north or east side of streets. **Odd numbers** are upon the south or west side of streets.

● Indicates street car lines. When placed after the name of a street it shows that the car line runs through that street. When placed after a street beginning, ending or intersecting, it denotes cars on such intersecting street. For example, the ● connected with Adams street shows cars on Exchange street and Caladonia avenue but not on Adams street or Jefferson avenue. At Allen street cars run through the street. also on connecting streets, State and Plymouth avenue North.

Total area of the city is about 15,913 acres.

Number of streets and alleys in city, 1,536. Total length of streets, about 401 miles.

REMOVALS.—*Against names showing removals from the city, the post office address is given; if into another State, both the post office and State are given.*

DEATHS.—*The date of death of all citizens whose names appeared in the Directory dying during the past twelve months, are recorded against the name in the present book. The same has been done each year since 1876, so that the several volumes of the Directory contain a mortuary list for that period, of great value for reference.*
