“Know Your City”

Rochester, with a population of 280,000 persons, is distinguished in many ways. It is a city of real beauty; it excels in many points of industrial production; it is prosperous and its living conditions are attractive.

The city covers 20,000 acres, an increase of more than 5000 acres in the last two years. Its assessed valuation is $286,455,240. The death rate in 1918 was 17.24 per thousand population. The birth rate in 1918 was 25.64 per thousand population. The tax levy in 1919 was $6,886,165.95, giving a rate of $24.06 per thousand.

The city boasts 1700 manufacturing establishments producing over 325 separate commodities. The investment in manufactures is $150,000,000 and the annual wages paid approximate $50,000,000. Rochester is the world’s headquarters for photographic goods and supplies. It ranks third in the production of shoes and has the same rank in the production of clothing. The production of shoes each year is valued at $25,000,000 and the clothing output is valued at the same amount.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It is a leader in telephone apparatus, paper box manufacture and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.

The park system includes five large and twenty-six small parks, containing 1640 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 474 acres; Exposition Park has an area of 42 acres, contains eight large practical and beautiful buildings; the property is valued at $449,424.

The city is known as one of homes. More than 42% of Rochester’s dwellings are owned by those who live in them, a distinction unequalled in any city of its size east of the Rockies.

The location of the city is in the heart of the richest agricultural country in New York State and second richest in the United States in point of productiveness. The seven counties that have Rochester as a center have a population of more than 700,000, representing a prosperous buying public which does its trading in Rochester.

Monroe County in which Rochester is located ranks among New York State counties according to the latest available statistics: first in total value of all farm crops, nursery stock, wheat and value of hogs; second in apples and peaches; third in value of farm property, swine and poultry, and in the production of orchard fruits, pears, cherries, miscellaneous vegetables, oats, corn, potatoes, and beans; fifth in small fruits; seventh in alfalfa; twenty-eighth in area.

In the matter of inventions, Rochester has always been in the forefront and the patent attorneys and inventors of Rochester secure more patents in proportion to population than those of other cities of its size, owing to the variety of industrial pursuits.

Rochester’s location is but one night’s ride from New York, Washington, St. Louis, Cincinnati, Toronto, Detroit, Cleveland, Boston, Montreal and Chicago. Within a radius of 90 miles of Rochester is found a population of more than 2,000,000. Within a radius of 760 miles is found a population of 75,000,000 or about 70% of the total population of the United States in addition to 5,000,000 Canadians.

Rochester’s slogan is “Rochester Made Means Quality.” Its products are sold everywhere in the civilized world.

Should be strong, conservative and progressive, accommodating and accessible.

More than a Million Five Hundred Thousand Dollars, capital and surplus with Depositors of Thirteen Million Dollars and Resources of Sixteen Million Dollars, indicate the strength of this institution; the position it occupies in the financial world indicates its conservatism, while its accessibility—in the center of the Financial District—is apparent.

draws interest from the first of the month if left until the quarter days,
quarter days being the first three business days of March, June, Septem-
ber and December. Deposits may be withdrawn on the last three business
days of a quarterly period without loss of interest.

THE RATE OF INTEREST is determined at the close of each six months

DIVIDENDS have been paid at the rate of four per cent. per annum since
Dec. 1st, 1907.

INTEREST IS CREDITED to accounts December 1st and June 1st, and
if not withdrawn will bear interest as a deposit.

THE PASS BOOK must be presented for depositing or withdrawing.
MONEY TO LOAN on bond and mortgage.

MORTGAGE INTEREST becomes due May 1st and November 1st.
THE BANK is open daily, holidays excepted, from 9 a.m. to 3 p.m.
except Saturdays, from 9 a.m. to 12 o'clock noon. Open Monday and
Saturday evenings from 7 until 9 o'clock to receive deposits.

"THERE IS ONLY ONE CLASS WE CANNOT REACH—THOSE WHO WILL NOT INVESTIGATE"

Chiropractic is the Science of locating the cause of disease and the Art of removing it by adjusting the subluxated vertebra and allowing the nerve energy to flow freely to and from the brain. Subluxations are partial displacements of vertebrae which decrease the size of the openings through which the spinal nerves pass and impinge them, hence shutting off a portion of nerve supply to the organs. The result is disease.
