THE ROCHESTER DIRECTORY

For the year ending October 1

1929

Containing

Alphabetical Section (Page 449) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Business Directory (Page 1933) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Reference Department (Page 161) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

House and Street Directory (Blue Section, Page 1517) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. A feature of great value and convenience.

Map (inside back cover) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Miscellaneous Information (Page 11) Organization of City Departments, giving officers and salaries,—Cemeteries,—Railway stations,—Churches and ministers,—Societies, Institutions, etc., with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Population tables, etc.

An alphabetical list of Halls, Blocks and Buildings from which street and number may be found for addresses which only give name of a certain building.

ROCHESTER

"Where Quality Dominates."

Many special advantages are offered by Rochester to the homeseeker and to the business man. It is a city with picturesque surroundings, set in the heart of the fertile Genesee Valley at the point where the river takes a drop of more than 300 feet in a series of three falls, and thus presents an ideal combination of industry and agriculture. The city occupies a strategic position from the standpoint of transportation, so that raw materials are easily and cheaply obtained and finished products promptly distributed. The city owes its location to the power generated in the Genesee River. The development of this power, originally used to cut logs and grind corn, has made Rochester an industrial city of note whose products are known in all parts of the world.

In its growth the city has lost few of its original charms and has taken on all the advantages of a large city. Rochester is located in the largest agricultural county in New York State, a county which ranks well up in point of productiveness with any in the country. Monroe County, with its five surrounding counties, total a population of about 500,000, and a circle drawn with a radius of 90 miles from Rochester embraces a population of nearly two million.

Known first as the Flour City because of its extensive milling interests, the city's cognomen was later changed to the Flower City because of the extensive horticultural interests which were developed. With the growth of industry on a large scale, the city became known as the city of varied industries and took as its slogan "Rochester Made Means Quality." Rochester boasts many famous industrial organizations and leads the world in the production of a number of products.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It is a leader in telephone apparatus, paper box manufacture and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.

The city boasts 1700 manufacturing establishments producing over 325 separate commodities. The investment in manufacturers is $200,000,000 and the annual wages paid approximate $110,000,000. Rochester is the world's headquarters for photographic goods and supplies. It ranks fourth in the production of women's shoes and has the same rank in the production of men's clothing. The production of shoes each year is valued at $40,000,000 and the clothing output is valued at $80,000,000.

The city covers 21,009.5 acres. Its assessed valuation is $634,563,943. The death rate in 1927 was 11.18 per thousand population. The birth rate in 1927 was 19.90 per thousand population. The tax levy in 1928 is $16,330,232.92, giving a rate of $25.749 per thousand.

One of the outstanding features of the city is its park system which includes five large and twenty-six small parks containing 1,649 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 474 acres; Edgerton (Exposition) Park has an area of 42 acres, contains eight large practical and beautiful buildings.

Because of the high grade of workmanship demanded in most of Rochester's industrial organizations, Rochester boasts an unusually large percentage of skilled mechanics. This means that wages are good, a situation which is reflected in the large proportion of home-owners found in this city. More than 42% of Rochester's dwelling are owned by those who live in them, which puts Rochester among the first ten cities of the country in this respect

From a transportation point of view the city enjoys many advantages. Many of the articles manufactured in Rochester are of a specialty and technical nature. The out-bound freight business from Rochester, therefore, is largely made up of less than carload shipments. As a result of this immense tonnage, the city undoubtedly has the best distributive service of any city this side of the sea board. Rochester is served by five steam roads and as many interurban trolleys. It is also located on the New York State Barge Canal and has an excellent harbor at the mouth of the Genesee where a great tonnage of in-bound and out-bound freight is handled, as well as a great volume of passenger traffic.

The city has recently established a Municipal Dock in the harbor and is taking other steps for the development of this natural resource. With the exception of the firms located on one single track line, all industries of Rochester are located in what is known as the Rochester switching district. Cars in-bound by any route, with the one exception named, can be spotted on the sidings of industries within the switching territory free of any additional expense. In other words, cars are spotted in the industries or forwarded therefrom on the basis of no greater cost than the flat Rochester rate. In the harvesting season hundreds of carloads of peaches, pears, grapes, apples and other fruits are shipped out of Rochester and surrounding territory.

Rochester is but an over-night's ride from New York, Washington, St. Louis, Cincinnati, Cleveland, Detroit, Toronto, Boston, Montreal and Chicago. This gives fast service in obtaining coal and other raw materials and in the distribution of finished products. One of the latest improvements in the city's transportation facilities is the new belt line railroad through the heart of the city in the bed of the old Erie Canal. This connects up all the railroads serving Rochester, both steam and electric, and provides rapid transit service for residents of the city as well as a fast freight movement.

The Barge Canal harbor, three miles long, extending from the heart of the city to the crossing of the Barge Canal on the South, has just been completed, together with extensive terminal facilities.

National advertising of many of the large industrial organizations has helped to keep Rochester and its products before the world. Goods from Rochester factories are found on the counters of merchants in all the states of the union and in many foreign countries.

About 40,000 horse power of electricity is developed from the Genesee River and plans have been made for the development of many times this amount by the damming of the Genesee at Portage.

Rochester enjoys excellent educational opportunities, especially of a technical and artistic nature, including schools of music, of art, and of medicine. The latter is just being organized along plans which will make it one of the leading institutions of its kind in the country, under the administration of the University of Rochester.

It contains an open shelf room, similar to a branch; a reference room, which is for more extensive and convenient study than is possible at the branches; a periodical room with a list of current magazines four times as large as that at the branches.

The branch libraries contain chiefly popular books for home use, but also works for use in the library only, such as dictionaries, cyclopedias, and other frequently needed reference books carefully selected for their merit and suitability. Each of the branch libraries is open every day in the year from 2 to 9 P.M. for reference and circulation.

THE CIVIL SERVICE.

For State Board of Commissioners, see page 63.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments and confidential subordinates), must be filled from applicants who have successfully passed an examination by a Board of civil service examiners, or from registered list of laborers.

A Board consisting of three members is appointed by the Mayor, who also appoints the secretary and chief examiner.

Whenever a position is to be filled, the examining Board will notify the applicants on record, to appear for examination, and appointments must be made by the appointing power from the list prepared by the commission.

Soldiers or sailors who served in the war of the rebellion, having any standing on the list, have the preference. Soldiers and sailors of Spanish-American war have no preference in appointment.

Local Board of Municipal Examiners. (*For City Appointments*).

The following honorably discharged soldiers in the Civil War are appointed by the Supervisors to take charge of the burial of indigent deceased soldiers, the sum of $75 being by law allowed for each burial. Fee, $2, and $2 for headstone permit.

ADDRESSING

Addressing is one important detail if you wish to get maximum results from any mail campaign.

Envelopes not accurately addressed are generally near enough right so that they do not come back to the sender—But they do hurt results if they look poor or have wrong first names or initials.

We offer a complete service including—Lists—Use of Lists—Addressing—Mailing—Copy Work—and Letters which are exactly like typewritten copies.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. Put—"We are listed in the directory" in your copy. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

Again Chrysler originality Re-Styles the entire Motor Car field. Entirely original in style conception—creations of Chrysler engineering and artistic genius—the new Chrysler "75" and "65" literally stamp as old-fashioned the bulky and cumbersome precedents in motor car beauty and performance.

The new Chrysler-built Plymouth stands out precisely in this way above any other in the lowest-priced field. No dollar buys as much as a Plymouth dollar.

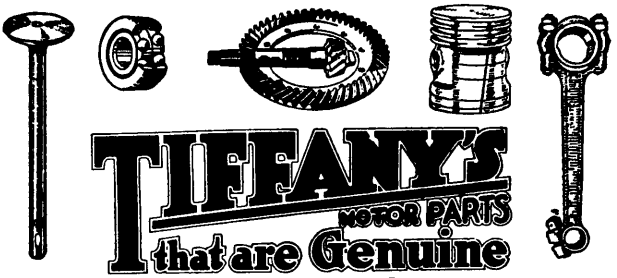
Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, would it interest you?



THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

THE City Directory is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. Too Late for This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Rochester Directory.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe it's product, is wise.

Investigate the City Directory, the book of many uses

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe it's product, is wise

GENERAL ELECTRIC Refrigerator

Simplified—no pipes, no drains, no attachments. Portable—install anywhere. Just plug into nearest outlet and it starts.

Quiet—three feet away you can hardly hear it.

No Servicing Necessary—never needs oiling or attention. All moving parts are enclosed in a hermetically sealed housing.

Economical—uses very little current, and maintains uniform temperature.

Clean—the circulation of air through the coils drives dust away from the top of the refrigerator.

Guaranteed by General Electric

The City Directory

Does not compete with any other advertising medium, but supplements and complements all other forms of mercantile publicity.

Intelligent Directory Advertising describes desirable merchandise attractively and directs you to the door of the man who has it for sale.

Every Wasted Minute Costs You Money

Whether it's your time or that of an inexpensive clerk that is wasted by using an out of date directory, the loss is yours.

In the course of a year the time wasted usually costs far more than the price of a new directory.

Misdirected parcels or messages cause expense and annoyance.

Cut out this leak. Order a new directory at once. It will pay you bigger dividends for the money invested than you realize.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way

If you could put a sign where everyone could see it would it interest you?

The City Directory

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

To Newspaper Readers

¶ People who want today's news TODAY buy the Times-Union.

¶ People who want complete news—and in great variety—buy the Times-Union.

¶ Families who must have a clean newspaper in their homes insist on the Times-Union.

¶ Families with growing, impressionable children, know that they can let their children read the Times-Union. There is nothing in it that the boys and girls should not see.

To Buyers of Advertising Space—

¶ The Times-Union is enjoying a steadily increasing circulation—concentrated in, or very close to, the City of Rochester.

¶ Readers of the Times-Union are worth-while people, with full confidence in their newspaper. This confidence is naturally extended to the advertising messages in its columns.

¶ The Times-Union carries a greater volume of advertising than ANY OTHER ROCHESTER NEWSPAPER.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

LETTERS

For many years we have experimented with various methods of producing letters which really look like typewritten copies.

To get your letters before a busy executive they must look exactly like one of his regular business messages.

The Kier Individualizing Press is a new invention and with it we are furnishing letters which are exactly like those written individually upon a typewriter.

Let us call and show you not only samples but proofs of what our letters are doing for others.

We offer a complete service including—Lists—Use of Lists—Addressing—Mailing—Copy Work.

LISTS

To get maximum results from any mail campaign you should use extreme care in getting your list of prospects.

Often we find it advisable to address from our own Master Lists instead of having a client go to the expense of buying the names.

No matter what your list requirements may be, it can do no harm to talk with us about them.

Remember we furnish both national and local lists.

We offer a complete service including—Lists—Use of Lists—Addressing—Mailing—Copy Work—and Letters which are exactly like Typewritten Copies.

Thermometers

Tycos

Surely, the "acid test" which we apply to each of our vast range of *Tycos* Temperature Instruments is reason sufficient for their immense popularity. We face to-day in every field a discriminating public, a scrupulous, investigating public—and the extensive use of *Tycos* Instruments is a reliable guarantee of their service value.

Remember the fact that we are to-day producing more temperature instruments than any other concern on earth and then specify *Tycos* Instruments.

Only a few varieties of some 8,000 types and styles we make are listed below. We have an abundant supply of serviceable literature. Write for some today.

Every Wasted Minute Costs You Money

Whether it's your time or that of an inexpensive clerk that is wasted by using an out of date directory, the loss is yours.

In the course of a year the time wasted usually costs far more than the price of a new directory.

Misdirected parcels or messages cause expense and annoyance.

Cut out this leak. Order a new city directory at once. It will pay you bigger dividends for the money invested than many of your ventures.

Those who buy without looking at the classified list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. Under One Roof

Early in store history, following the trend of the times, foreign offices were established so that the styles and needs of our patrons would never want for the latest good thing, fad or fancy.

In Paris, in London, in Berlin, style changes are quickly recorded, and from our offices there instantly cabled to Rochester.

Chemnitz, Vienna, Lyons, Florence and Belfast share in this. Each office is a center for our department managers who throughout the year are constantly commuting to every corner of the continent. Rumors are no part of our business, nor do we accept information second hand. It is a policy of this house always to have representatives at the pulsating markets of the world, where the best that is obtainable may be quickly assembled under one roof.

In all of our eighty departments, this buying consciousness is ever alert. The early principles of the founders are never forgotten; ***the best possible merchandise at the lowest possible cost.***

In all this there is a keynote that says: ***no transaction will be considered satisfactory to us unless it is equally satisfactory to you.***

REMOVALS—Against names showing removals from the city, the post office address is given; if into another State, both the post office and State are given.

DEATHS—The date of death of citizens whose names appeared in the Directory dying during the past twelve months, is recorded against the name in the present book. The same has been done each year since 1876, so that the several volumes of the Directory contain a mortuary list for that period, of great reference value.
