WARNING!

“He Was a Stranger and He Took Me In”

Unknown solicitors representing various questionable publications take at least \$100,000.00 from Rochester business and professional men annually.

These publications include many one time directories and business indexes which are unauthorized by organizations which the solicitor claims to represent. They are of no value to anyone except the promoter.

Included in a list of over one hundred on file in this office, are the following classifications:

<i>Travel and Hotel Directories</i>	<i>Trade Indexes</i>
<i>Railroad Employees' Journals</i>	<i>Business Guides</i>
<i>Buyers Commercial Register</i>	<i>National Reference Guides</i>
<i>Sellers Reference Guides</i>	<i>N. Y. State Business Directories</i>
<i>Buyers Classified Guides</i>	<i>Industrial Directory</i>

Before paying for advertising in out-of-town directories represented by strangers, verify your signature and check the source of the order.

Before You Sign, Phone this office for a report on the publication. Our information costs you nothing and may save you much—if you

INVESTIGATE—BEFORE YOU INVEST

THE ROCHESTER DIRECTORY

For the year ending October 1

1932

Containing

Alphabetical Section (Page 361) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business or are employed, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Business Directory (Page 1789) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Reference Department (Page 129) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Street and House Directory (Pink Section, Page 1549) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. A feature of great value and convenience.

Map (inside back cover) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Miscellaneous Information (Page 22) Organization of City Departments, giving officers and salaries,—Railway stations,—Societies, Institutions, etc., with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Population tables, etc.

City Directory Statistical Review

Suggested and Planned by American Community Advertising Association

Adopted by Association of North American Directory Publishers

Compiled by Statistical Bureau, Rochester Chamber of Commerce

ROCHESTER, NEW YORK—"The Flower City"

Form of Government: City Manager.

Population: 328,132, Federal Census 1930.

Predominating Nationalities: Aside from Native: Italian, German, Canadian, Russian and English.

Area: Thirty-four square miles. Altitude 500 to 679 feet.

Assessed Valuation: \$653,985,216. City Tax rate \$25.80 per thousand in 1931.

Parks: 33 with 1,777 acres valued at \$3,000,000. Public baseball diamonds and tennis courts in all of the larger parks, and public golf links at Genesee Valley and Durant-Eastman. In addition there are nine private golf courses close to the city.

City's Bonded Debt: 1930, \$52,462,425.

Financial: Rochester has four savings banks, six trust companies and one commercial bank with total deposits of \$381,997,437. Resources not including buildings and equipment amounted to \$443,249,080. Clearing aggregated \$599,751,946.

Post Office Receipts: 1930, \$2,983,688. Telephones in service July 31, 1931, 89,924.

Churches: 185 of all denominations.

Building Construction: 1930, value of building permits, \$8,008,274, providing quarters for 322 additional families. Leads all cities of like size east of the Rockies in home ownership.

Industry: 1,044 manufacturing establishments producing goods valued at more than \$5,000 each annually. Selling value of manufactured products \$427,730,792. Salaries and wages \$113,564,461. Leads the world in manufacture of photographic film, cameras, mail chutes, optical goods, check protectors, thermometers, office systems, enameled steel tanks and horticultural products. Ranks high in the production of clothing, buttons, shoes, machinery, telephone apparatus, radio, electrical supplies, railway signals and lithography.

Trade: Retail territory serves 700,000 people within a radius of thirty-five miles. Jobbing territory serves 2,000,000 people within ninety mile radius. Retail establishments sold to customers \$126,953,179 in 1927. Live Chamber of Commerce with over 3,500 members.

Hotels: Nine modern with total of 2,650 rooms.

Transportation: Five railroads, the New York Central, Erie; Pennsylvania, Lehigh, Buffalo, Rochester & Pittsburgh, fifteen bus lines enter the city. Barge Canal Harbor and warehouses in centre of city. City owned Port of Rochester on Lake Ontario seven miles from centre of City, with regular day and night boat service to Canada and Thousand Islands; two daily ferries to Canada. City owned subway crosses entire city for inter-urban passenger and freight service. Municipality owned and operated flying field covering 110 acres including two modern hangars.

Amusements: There are eight theatres for stage productions, the largest seating 4,200 people; numerous motion picture houses, municipally owned Convention Hall, International League baseball, and the annual Exposition and Horse Show.

Education: There are forty-five elementary schools, one normal, four senior high, four Junior-Senior high and two junior high schools. Supplementing these are four special schools devoted to the instruction of backward pupils. Number of pupils in schools exceeds 58,000 and there are 2,108 teachers. A civic orchestra of fifty pieces frequently gives concerts to develop among high school students an appreciation for music. Popular programs are given before the public for the same purpose on Sundays.

Advantages for higher education are offered through the University of Rochester, including the Eastman School of Music and the College of Medicine and Dentistry; Mechanics Institute, Colgate-Rochester Divinity School, Nazareth College, St. Andrews and St. Bernard's Seminary. There is also a School for the Deaf.

Street Mileage: 525 miles with 419 miles paved, 511 miles of sewers, 201 miles electric street railway. Pure water from city owned lakes, thirty miles away, with capacity of 242,000,000 gallons, and an average daily pump of 30,000,000 gallons. There are approximately 550 miles of mains and an estimated plant value of over \$14,000,000.

Fire Department: Employed 531 uniformed men in 1930. Twenty engine companies, ten trucks, five hose, one water tower, one protective and two supply companies. All modern motorized equipment.

Police Department: Has 482 men with seven precincts. The Rochester Chamber of Commerce will furnish any additional information on request.

ROCHESTER

"Where Quality Dominates."

Rochester's history is in part the chronicle of the famous Genesee Country of Western New York. The settlement of the city, its remarkable growth from a little community of 100 acres into the third largest city in the Empire State in a little more than a century, is due almost as much to the natural advantages of this section of the state as it is to the enterprise of the hardy pioneers, who, in the early years of the nineteenth century, started the little village of Rochester upon the path of progress.

This village was incorporated as Rochesterville in 1817, changed its name to Rochester in 1822, and became a city in 1834. The city had grown from a settlement of 100 acres in 1811 to a thriving community in 1834, comprising some 4,000 acres, with a population of more than 14,000 persons.

The Erie canal, opened at Rochester in 1823, and completed two years later, played a conspicuous part in building up the commerce of Rochester and in developing the resources of the Genesee Country. In 1827 there were listed more than 100 manufacturing concerns, and even at that early date there was a constantly increasing demand for Rochester-made products, large shipments going east and west via the canal each week.

In the ninety-five years since its incorporation as a city in 1834, Rochester has enjoyed a remarkably uninterrupted growth. When the opening of the west resulted in the removal of the milling interests from the city, the enterprise of its citizens resulted in the establishment of other lines of industry.

PORT OF ROCHESTER—ON LAKE ONTARIO

Many special advantages are offered by Rochester to the homeseeker and to the business man. It is a city with picturesque surroundings, set in the heart of the fertile Genesee Valley at the point where the river takes a drop of more than 300 feet in a series of three falls, and thus presents an ideal combination of industry and agriculture. The city occupies a strategic position from the standpoint of transportation, so that raw materials are easily and cheaply obtained and finished products promptly distributed. The city owes its location to the power generated in the Genesee River. The development of this power, originally used to cut logs and grind corn, has made Rochester an industrial

city of note whose products are known in all parts of the world.

In its growth the city has lost few of its original charms and has taken on all the advantages of a large city. Rochester is located in the largest agricultural county in New York State, a county which ranks well up in point of productiveness with any in the country. Monroe County, with its five surrounding counties, total a population of about 500,000, and a circle drawn with a radius of 90 miles from Rochester embraces a population of nearly two million.

PART OF INDUSTRIAL ROCHESTER

Known first as the Flour City because of its extensive milling interests, the city's cognomen was later changed to the Flower City because of the extensive horticultural interests which were developed. With the growth of industry on a large scale, the city became known as the city of varied industries and took as its slogan "Rochester Made Means Quality." Rochester boasts many famous industrial organizations and leads the world in the production of a number of products.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It is a leader in telephone apparatus, paper box manufacture and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.

PART OF BUSINESS SECTION, LOOKING EAST ON MAIN STREET

Rochester had over 1,044 manufacturing establishments in 1927, producing 325 separate commodities. Each of these concerns manufactured goods valued at more than \$5,000 annually. The investment in plant building and equipment was \$297,586,431, whereas, the annual wages and salaries approximated \$113,564,461. Rochester is the worlds headquarters for photographic goods and supplies. Its ranks fourth in the production of women's shoes and has the same rank in the production of men's clothing. The production of shoes each year is valued at \$25,000,000, and the clothing

output is valued at \$60,000,000. In 1927 Rochester out of twenty leading American cities ranked first in the percent. of wage earners (16.6%) to total population.

From 1923 to 1927 Rochester industries showed the greatest per cent. increase in the number of employees, stood second in the growth of wages paid, and rated third in the per cent. growth realized in manufacturing output, as compared with thirty leading American cities.

GENESEE VALLEY PARK

One of the outstanding features of the city is its park system which includes five large and twenty-eight small parks containing 1,777 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 474 acres; Edgerton (Exposition) Park has an area of 42 acres, contains eight large practical and beautiful buildings.

Because of the high grade of workmanship demanded in most of Rochester's industrial organizations, Rochester boasts an unusually large percentage of skilled mechanics. This means that wages are good, a situation which is reflected in the large proportion of home-owners found in this city. More than 42% of Rochester's dwellings are owned by those who live in them, which puts Rochester among the first ten cities of the country in this respect.

From a transportation point of view the city enjoys many advantages. Many of the articles manufactured in Rochester are of a specialty and technical nature. The out-bound freight business from Rochester, therefore, is largely made up of less than carload shipments. As a result of this immense tonnage, the city undoubtedly has the best distributive service of any city this side of the sea board.

Rochester is served by five important railroads, three suburban electric routes, the New York State Barge Canal, and steamship lines operating on Lake Ontario. Improved highways leading east, west and south, enable any type of merchandise and produce to be transported to adjacent cities by motor truck. The city possesses modern aviation facilities in its municipally-owned airport. These factors have made Rochester one of the outstanding cities in the country in point of transportation service and facilities.

It is estimated that 9,000 people enter and depart from Rochester each day over the city railroads, which run approximately 150 passenger trains daily. In addition to this, about 4,000 people are handled daily by electric suburban lines, and busses operating in and out of the city.

High-grade freight service from Rochester to all destinations is rendered by the railroads entering the city.

The Barge Canal is an important factor in the transportation service of Rochester. A large modern freight terminal and warehouse constructed by the state of New York, at the dockside of this inner harbor, which is about two miles in length, and located in the heart of the business district, is equipped to handle almost any amount of freight.

COURT STREET BRIDGE, SUBWAY AND BARGE CANAL HARBOR

In its new subway, Rochester has all the advantages of a highly modern joint transit railroad facility. This important traffic artery operated by electricity, provides expedited passenger and freight service for a large portion of the city. at a cost of more than \$12,000,000. Rochester has utilized the right of way of the old Erie Canal, passing east and west through the very center of the city, which has been abandoned in favor of the New Barge Canal, south of the city.

That there is an unusual opportunity for industrial development along the rails of the new subway is obvious. Many desirable sites are available throughout the nine miles of the line. West of the city a vast territory may be readily opened up to new industries.

All industries of Rochester are located in what is known as the Rochester reciprocal district. Cars in-bound by any route, can be spotted on the sidings of industries within the switching territory free of any additional expense. In other words, cars are spotted in the industries or forwarded therefrom on the basis of no greater cost than the flat Rochester rate. In the harvesting season hundreds of carloads of peaches, pears, grapes, apples and other fruits are shipped out of Rochester and surrounding territory.

Rochester is but an over-night's ride from New York, Washington, St. Louis, Cincinnati, Cleveland, Detroit, Toronto, Boston, Montreal and Chicago. This gives fast service in obtaining coal and other raw materials and in the distribution of finished products.

National advertising of many of the large industrial organizations has helped to keep Rochester and its products before the world. Goods from Rochester factories are found on the counters of merchants in all the states of the union and in many foreign countries.

About 40,000 horse power of electricity is developed from the Genesee River and plans have been made for the development of many times this amount by the damming of the Genesee at Portage.

Rochester has one main Post Office and eight sub-stations located in various parts of the city, as well as a parcel post annex, devoted exclusively to the handling of parcel post shipments, which is situated close to the main post office. Mail is distributed by a force of 257 letter carriers.

The Rochester airport, a municipally-owned and operated flying field, is located four miles southeast of the center of the city and approximately one-half mile southwest of the city line. The airport is on the Scottsville road, an improved state highway, and is easily accessible by automobile. Trolley cars operate to within one and one-half miles of the airport and passenger busses pass by it.

The field is rectangular in shape, and contains 110 acres. The surface of the field is sod. Natural and tile drainage insure an adequately dry surface at all times.

In addition to two main runways, 1,500 feet and 1,000 feet in length, respectively, there are two cross-wind runways, each 1,000 feet long. All the landing strips are of stone base and cinder top. Grading of the entire field is being completed and will result in an "allway" field.

One morning and two evening newspapers, as well as one German evening daily and several other foreign language weeklies, are published in Rochester. The total circulation of the three English daily newspapers, is 210,651.

The trading area covered by these papers, extends at some points to a distance of about 60 miles. Within this radius the influence of Rochester as a business and cultural center is well demonstrated by the large circulation of its newspapers.

Rochester is a city of homes, and its clean, tree-lined streets, well maintained by efficient city departments, give a feeling of liveableness and friendliness to the city that is not to be surpassed in any community of its size.

Wise and far-sighted city zoning has confined industry to certain areas of the city in juxtaposition to districts providing workingmen's houses.

The industries of Rochester are, for the most part, of a light manufacturing variety, and consequently, the city is unusually free of smoke and other nuisances.

Workingmen's homes can be bought or rented at very favorable rates, and there is available a supply of good, clean living accommodations for all classes of people.

A RESIDENTIAL STREET

Rochester has two lake-shore city-owned bathing beaches, embracing over a mile of lake front, together with two outdoor pools and two indoor pools. Bath houses are also maintained in convenient sections of the city.

Strictly speaking, the libraries of the city are not part of its recreational facilities, but, nevertheless, they provide op-

portunities for profitable use of spare time. The libraries, branches and distributing stations number 85, with a total circulation of 1,759,534.

In 1927, the Public Library Department spent approximately \$325,000 for maintenance and upkeep

MEMORIAL ART GALLERY

Connected with the University is the Memorial Art Gallery, which offers facilities for college work in art, as well as for public exhibitions. The gallery embraces a children's

museum, with a classroom for educational work with children, and a Little Theatre with a seating capacity of 300 persons.

EASTMAN THEATRE

Rochester has a total of 41 theatres, of which 33 are devoted to motion pictures, with a total seating capacity of 48,500. The famous Eastman Theatre which is an outstanding architectural achievement, has a seating capacity of 3,500, and provides seasonal musical events by world's famous artists. Legitimate stage productions are provided by two theatres, one of which maintains a splendid stock company producing Broadway successes.

International League baseball is provided through a local team, with a modern concrete stadium seating over 18,000.

Rochester is a livable city, and possesses many characteristics conducive to the well-being of the individual. The spirit of progress in Rochester, has been well exemplified in Civic affairs as well as in Industrial Development. Seldom can one find a community more keenly aware of its Civic duty or more willing to co-operate in movements to achieve those things which are essential to the progress and prosperity of the city.

Rochester occupies a strong position among cities in its class, and the diversity of its manufactures should enable practically any class of industry, to achieve economic and stable production, especially if the product requires a large amount of skilled labor in its manufacture.

*Correction to sea level adds about six-tenths of an inch. Rochester lies about 510 feet above sea level.

During the year 1930 there were 83 clear days; 108 partly cloudy; 174 cloudy; rain or snow fell on 168 days to the amount of 0.01 inch or more; on 105 to the amount of 0.04 or more; snow fell on 99 days; hail on 1; thunder storms occurred on 23; and auroras on 3. The total wind movement was 65,310 miles; total rainfall, 27.98 inches; average cloudiness 64 per cent; average relative humidity 69 per cent; the maximum temperature was freezing or below 50 days; minimum, freezing or below, 119 days.

Average temperature for 59 years, 47°; average precipitation, 32.83 inches.

LEGAL HOLIDAYS.

There are ten public holidays—New Year's Day, 1st of January; Lincoln's Birthday, 12th of February; Washington's Birthday, 22d of February; Memorial Day, 30th of May; Independence Day, 4th of July; Labor Day, first Monday in September; Columbus Day, October 12th; Tuesday following the first Monday in November, or day of State election; any day appointed by the Governor of the State or President of the United States, as a day of public fast, or Thanksgiving; Christmas day, 26th of December; also every Saturday, from 12 o'clock noon until 12 o'clock midnight.

When a public holiday falls upon Sunday, the following Monday becomes a public holiday.

MUNICIPAL
ELECTION
FIRST TUESDAY
AFTER THE
FIRST MONDAY
OF NOVEMBER,
IN AN ODD-
NUMBERED
YEAR

CITY
GOVERNMENT
ORGANIZED
SECOND
DAY OF
JANUARY
IN AN EVEN
NUMBERED
YEAR

MAYOR. _____
Salary, \$4,500; Office, 8 City Hall; Office Hours,
9 A.M. to 5 P.M.

VICE MAYOR—Isaac Adler.
Executive Clerk—Floyd S Benham; appointed by the
City Manager.
The Mayor is the presiding officer of the City Council
and is chosen by the Council.

CITY COUNCIL.
Councilmen at Large—Isaac Adler, Joseph L. Gun-
zetta, R. Andrew Hamilton, Charles Stanton. Terms
expire December 31, 1933.

District Councilmen—Northeast District (wards 5,
7, 8, 17, 22), William F. Durman. East District
(wards 6, 12, 15, 18, 21), Louis S. Foulkes. North-
west District (wards 1, 2, 9, 10, 15, 20, 23, 24),
Nelson A. Milne. South District (wards 3, 4, 11, 13,
14, 19), Chester A. Peake. Salaries, \$1,500, terms
expire Dec. 31, 1931.

Regular Meetings of the Council—Regular meetings
shall be held at 8 P.M. in the Council Chamber Room,
No. 30 City Hall, the second Monday of April, 1930,
and every alternate Monday thereafter during April,
May and June, and on the first Monday in September
and every alternate Monday thereafter during the months
of September, October, November and December in the
year 1930. In the year 1931 regular meetings shall
be held on the first Monday of January, and every al-
ternate Monday thereafter during the months of Janu-
ary, February, March, April, May and June, and on
the first Monday of September, the 15th of September,
the last Monday of September, and every alternate Mon-
day thereafter during the months of October, November
and December. When the date for a regular meeting
falls on a legal holiday the meeting shall be held on
the following day. The Council may, by adjournment,
continue any regular meeting to a day certain.

Special Meetings—Special meetings may be called at
any time by the Mayor, the City Manager or any three
Councilmen. The City Clerk shall cause the written
notice thereof specifying the object of the meeting, to
be served upon each member personally or to be de-
livered at his usual place of residence at least twenty-
four hours before the time fixed for such meeting. At
such special meeting no business other than that named
in the notice of meeting shall be transacted.

City Manager—Stephen B. Story; salary, \$20,000.
Office 8 City Hall; office hours, 9 A.M. to 5 P.M.

Executive Secretary—Rebecca C. Rochford. Secre-
tary—Evelyn A. Uriel.

Bureau of Personnel—Director, Robert H. Link;
Steno., Ethel Handel.

Service Bureau—Director, John M. Glosser.

The City Manager is the Chief Executive Officer of
the City; appointed by the City Council. All officers
of the city not elected by the people (except as other-
wise provided) are appointed by the City Manager.

Foreman of Repair Shop—Charles F. Miller. Supt.
Meter Shop—Thomas C. Lynch.

All employees of this Bureau are appointed by the
Superintendent of Water Works.

The original Water Works were begun in July 1873,
and completed in February, 1876. They embrace three
distinct systems of water distribution from two separate
sources. The first or principal one is the gravity sys-
tem from Hemlock Lake as source, which now includes
three conduits and 493 miles of distributing pipe; the
second is the Holly System which serves essentially in
affording a more efficient fire protection in the central
and manufacturing districts of the city, the extent of
distributing pipe connected therewith being about 25
miles. The third is the Charlotte System which de-
rives its supply from Lake Ontario with about ten miles
of distributing pipes. Total length of distributing
pipes, in city, of three systems about 528 miles.

Conduit I consists of 9.8 miles of 36-inch, and 3
miles of 24-inch wrought-iron riveted pipe, and 15.5
miles of 24-inch cast-iron pipe; total length of con-
duit I is 28.3 miles.

Conduit II consists of 2,252 miles of brick conduit
6 feet in diameter, .29 of 60-inch steel intake pipe and
25.94 miles of 38-inch riveted steel pipe, with 2 miles
of 36-inch cast-iron pipe; total length of conduit II,
30.4 miles.

Conduit III was constructed in 1914 to 1918 from
the foot of the brick tunnel to Rochester and consists
of 7.8 miles of 37-inch cast-iron pipe and 17.7 miles of
37-inch lock-lar steel pipe. Total length of conduits
and distributing pipes, January 1, 1919, 542.2 miles.

Postal Cards—2 cents each. Reply Postal Cards, 4
cents. Post Cards, 2 cents.

Printed Matter—1 cent for each two ounces or
fraction. Limit of weight varies.

Parcel Post—Merchandise, 14 cents per pound or
fraction thereof, except to Colombia, Cuba, Guada-
loupe, Haiti, Japan, Panama and Peru, which is 12
cents per pound or fraction thereof. Limit of weight
varies in different countries. Certain countries require
a transit charge in addition to postage. Packages
must be accompanied by a Customs Declaration, blanks
for which will be furnished by the Post Office. Pack-
ages may be registered, except to Barbados, Great
Britain and Ireland, the Netherlands, Uruguay, France
and Dutch Guiana. Not mailable from a letter box.

International Money Orders—For sums not exceeding
\$10, ten cents; for each addition \$10 or fraction, 10
cents to all countries not named in the above United
States money order list. The limit of a single order
is \$100.

PARCEL POST INFORMATION

Parcels weighing eight ounces or less are third class and mailable at the rate of 1½ cents for each two ounces or fraction thereof, except books, catalogs, seeds, plants, bulbs, scions which are subject to postage at the rate of 1 cent for each two ounces or fraction thereof. Parcels weighing more than 8 ounces are mailable at the following pounds rates, a fraction of a pound being considered a full pound.

DIRECTORY ADVERTISING

BRINGS SATISFACTORY RESULTS

The difference between

Reference and

Creative media

is their direction

The seller's effort to stimulate demand is well carried by outgoing, extensive, display media, but—

he should remember that initiative rests with the buyer, and when the hunt for the goods begins, creative media which may have built up the demand, are at a disadvantage.

It is the difference between *coming* and *going*.

The creative advertising is going after the prospect, to make him want to buy, but when you have him coming, reference media should be used to connect the demand with the local supply. Every effort should be made to direct the purchaser to the goods advertised, at the point where they may be seen.

It is here that reference media, directories, find their logical place in the cycle of the sale.

Association of
North American Directory Publishers

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1,067,500$$
