WARNING!

"He Was a Stranger and He Took Me In"

Unknown solicitors representing various questionable publications take at least $100,000.00 from Rochester business and professional men annually.

These publications include many one time directories and business indexes which are unauthorized by organizations which the solicitor claims to represent. They are of no value to anyone except the promoter.

Included in a list of over one hundred on file in this office, are the following classifications:

Travel and Hotel Directories
Railroad Employees' Journals
Buyers Commercial Register
Sellers Reference Guides
Buyers Classified Guides
Trade Indexes
Business Guides
National Reference Guides
N. Y. State Business Directories
Industrial Directory
Sheriff's & Police Officer's Directories

Before paying for advertising in out-of-town directories represented by strangers, verify your signature and check the source of the order.

Before You Sign, Phone this office for a report on the publication. Our information costs you nothing and may save you much—if you

THE ROCHESTER DIRECTORY

For the year ending November 1

1936

Containing

Alphabetical Section (Page 193) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business or are employed, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Business Directory (Page 1165) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Reference Department (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Street and House Directory (Pink Section, Page 933) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. The Streets are arranged in alphabetical order and show the ward in which they are located. The symbol ◎ following a name in this section indicates that the house is owned by the person listed or by some member of the family.

Map (inside back cover) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Miscellaneous Information (Page 11) Organization of City Departments, giving officers and salaries,—Railway stations,—Societies, Institutions, etc., with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Population tables, etc.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Consult Your Directory

Accurate Information is worth all it costs.

ROCHESTER

"Where Quality Dominates."

Rochester's history is in part the chronicle of the famous Genesee Country of Western New York. The settlement of the city, its remarkable growth from a little community of 100 acres into the third largest city in the Empire State in a little more than a century, is due almost as much to the natural advantages of this section of the state as it is to the enterprise of the hardy pioneers, who, in the early years of the nineteenth century, started the little village of Rochester upon the path of progress.

This village was incorporated as Rochesterville in 1817, changed its name to Rochester in 1822, and became a city in 1834. The city had grown from a settlement of 100 acres in 1811 to a thriving community in 1834, comprising some 4,000 acres, with a population of more than 14,000 persons.

The Erie canal, opened at Rochester in 1823, and completed two years later, played a conspicuous part in building up the commerce of Rochester and in developing the resources of the Genesee Country. In 1827 there were listed more than 100 manufacturing concerns, and even at that early date there was a constantly increasing demand for Rochester-made products, large shipments going east and west via the canal each week.

In the ninety-five years since its incorporation as a city in 1834, Rochester has enjoyed a remarkably uninterrupted growth. When the opening of the west resulted in the removal of the milling interests from the city, the enterprise of its citizens resulted in the establishment of other lines of industry.

PORT OF ROCHESTER—ON LAKE ONTARIO

Many special advantages are offered by Rochester to the homeseeker and to the business man. It is a city with picturesque surroundings, set in the heart of the fertile Genese Valley at the point where the river takes a drop of more than 300 feet in a series of three falls, and thus presents an ideal combination of industry and agriculture. The city occupies a strategic position from the standpoint of transportation, so that raw materials are easily and cheaply obtained and finished products promptly distributed. The city owes its location to the power generated in the Genesee River. The development of this power, originally used to cut logs and grind corn, has made Rochester an industrial city of note whose products are known in all parts of the world.

In its growth the city has lost few of its original charms and has taken on all the advantages of a large city. Rochester is located in the largest agricultural county in New York State, a county which ranks well up in point of productiveness with any in the country. Monroe County totals a population of 423,881, and a circle drawn with a radius of 90 miles from Rochester embraces a population of nearly two million.

PART OF INDUSTRIAL ROCHESTER

Known first as the Flour City because of its extensive milling interests, the city's cognomen was later changed to the Flower City because of the extensive horticultural interests which were developed. With the growth of industry on a large scale, the city became known as the city of varied industries and took as its slogan "Rochester Made Means Quality." Rochester boasts many famous industrial organizations and leads the world in the production of a number of products.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It as a leader in telephone apparatus, paper box manufacturers and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.

PART OF BUSINESS SECTION, LOOKING EAST ON MAIN STREET

Central Library of Rochester and Monroe County - City Directory Collection - 1936

Rochester had 935 manufacturing establishments in 1929, producing 325 separate commodities. Each of these concerns manufactured goods valued at more than $5,000 annually. The investment in plant building and equipment was $297,586,431, whereas, the annual wages and salaries approximated $113,504,923. Rochester is the worlds headquarters for photographic goods and supplies. It ranks fourth in the production of women's shoes and has the same rank in the production of men's clothing. The production of shoes each year is valued at $20,000,000, and the clothing output is valued at $50,000,000. In 1927 Rochester out of twenty leading American cities ranked first in the percent of wage earners (16.6%) to total population.

From 1923 to 1927 Rochester industries showed the greatest per cent increase in the number of employees, stood second in the growth of wages paid, and rated third in the percent growth realized in manufacturing output, as compared with thirty leading American cities.

GENESEE VALLEY PARK

One of the outstanding features of the city is its park system which includes five large and twenty-eight small parks containing 1,777 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 474 acres; Edgerton (Exposition) Park has an area of 42 acres, contains eight large practical and beautiful buildings.

Because of the high grade of workmanship demanded in most of Rochester's industrial organizations, Rochester boasts an unusually large percentage of skilled mechanics. This means that wages are good, a situation which is reflected in the large proportion of home-owners found in this city. More than 42% of Rochester's dwellings are owned by those who live in them, which puts Rochester among the first ten cities of the country in this respect.

From a transportation point of view the city enjoys many advantages. Many of the articles manufactured in Rochester are of a specialty and technical nature. The outbound freight business from Rochester, therefore, is largely made up of less than carload shipments. As a result of this immense tonnage, the city undoubtedly has the best distributive service of any city this side of the sea board.

Rochester is served by five important railroads, three inter-state bus lines, the New York State Barge Canal, and steamship lines operating on Lake Ontario. Improved highways leading east, west and south, enable any type of merchandise and produce to the transported to adjacent cities by motor truck. The city possesses modern aviation facilities in its municipally-owned airport. These factors have made Rochester one of the outstanding cities in the country in point of transportation service and facilities.

It is estimated that 9,000 people enter and depart from Rochester each day over the city railroads, which run approximately 150 passenger trains daily. In addition to this, about 4,000 people are handled daily by busses operating in and out of the city.

High-grade freight service from Rochester to all destinations is rendered by the railroads entering the city.

The Barge Canal is an important factor in the transportation service of Rochester. A large modern freight terminal and warehouse constructed by the state of New York, at the dockside of this inner harbor, which is about two miles in length, and located in the heart of the business district, is equipped to handle almost any amount of freight.

COURT STREET BRIDGE, SUBWAY AND BARGE CANAL HARBOR

In its new subway, Rochester has all the advantages of a highly modern joint transit railroad facility. This important traffic artery operated by electricity, provides expedited passenger and freight service for a large portion of the city, at a cost of more than $12,000,000. Rochester has utilized the right of way of the old Erie Canal, passing east and west through the very center of the city, which has been abandoned in favor of the New Barge Canal, south of the city.

That there is an unusual opportunity for industrial development along the rails of the new subway is obvious. Many desirable sites are available throughout the nine miles of the line. West of the city a vast territory may be readily opened up to new industries.

All industries of Rochester are located in what is known as the Rochester reciprocal district. Cars in-bound by any route, can be spotted on the sidings of industries within the switching territory free of any additional expense. In other words, cars are spotted in the industries or forwarded therefrom on the basis of no greater cost than the flat Rochester rate. In the harvesting season hundreds of carloads of peaches, pears, grapes, apples and other fruits are shipped out of Rochester and surrounding territory.

Rochester is but an over-night's ride from New York, Washington, St.Louis, Cincinnati, Cleveland, Detroit, Toronto, Boston, Montreal and Chicago. This gives fast service in obtaining coal and raw materials and in the distribution of finished products.

National advertising of many of the large industrial oganizations has helped to keep Rochester and its products before the world. Goods from Rochester factories are found on the counters of merchants in all the states of the union and in many foreign countries.

About 40,000 horse power of electricity is developed from the Genesee River and plans have been made for the development of many times this amount by the damming of the Genesee at Portage.

Rochester has one main Post Office with sub-stations located in various parts of the city. Mail is distributed by a force of over 250 letter carriers.

The Rochester airport, a municipally-owned and operated flying field, is located four miles southeast of the center of the city and approximately one-half mile southwest of the city line. The airport is on the Scottsville road, an improved state highway, and is easily accessible by automobile. Trolley cars operate to within one and one-half miles of the airport and passenger busses pass by it.

The field is rectangular in shape, and contains 110 acres. The surface of the field is sod. Natural and tile drainage insure an adequately dry surface at all times.

In addition to two main runways, 1,500 feet and 1,000 feet in length, respectively, there are two cross-wind runways, each 1,000 feet long. All the landing strips are of stone base and cinder top. Grading of the entire field is being completed and will result in an "allway" field.

One morning and two evening newspapers, as well as one German evening daily and several other foreign language weeklies, are published in Rochester. The total circulation of the three English daily newspapers is over 200,000.

The trading area covered by these papers, extends at some points to a distance of about 60 miles. Within this radius the influence of Rochester as a business and cultural center is well demonstrated by the large circulation of its newspapers.

Rochester is a city of homes, and its clean, tree-lined streets, well maintained by efficient city departments, give a feeling of liveableness and friendliness to the city that is not to be surpassed in any community of its size.

Wise and far-sighted city zoning has confined industry to certain areas of the city in juxtaposition to districts providing workingmen's houses.

The industries of Rochester are, for the most part, of a light manufacturing variety, and consequently, the city is unusually free of smoke and other nuisances.

Workingmen's homes can be bought or rented at very favorable rates, and there is available a supply of good, clean living accommodations for all classes of people.

MEMORIAL ART GALLERY

Connected with the University is the Memorial Art Gallery, which offers facilities for college work in art, as well as for public exhibitions. The gallery embraces a children's museum, with a classroom for educational work with children, and a Little Theatre with a seating capacity of 300 persons.

MAGNOLIA TIME—OXFORD STREET

Rochester has two lake-shore city-owned bathing beaches, embracing over a mile of lake front, together with other out-door and indoor pools. Bath houses are also maintained in convenient sections of the city.

Strictly speaking, the libraries of the city are not part of its recreational facilities, but, nevertheless, they provide opportunities for profitable use of spare time. Branch libraries are situated in various parts of the city for the convenience of the public.

Central Library of Rochester and Monroe County - City Directory Collection - 1936

EASTMAN THEATRE

Rochester has a total of 41 theatres and auditoriums of which 33 are devoted to motion pictures, with a total seating capacity om 48,500. The famous Eastman Theatre, which is an outstanding architectural achievement, has a seating capacity of 3,500, and provides seasonal musical events by world's famous artists.

International League baseball is provided through a local team, with a modern concrete stadium seating over 18,000.

Rochester is a livable city, and possesses many characteristics conducive to the well-being of the individual. The spirit of progress in Rochester, have been well exemplified in Civic affairs as well as in Industrial Development. Seldom can one find a community more keenly aware of its Civic duty or more willing to co-operate in movements to achieve those things which are essential to the progress and prosperity of the city.

Rochester occupies a strong position among cities in its class, and the diversity of its manufactures should enable practically any class of industry to achieve economic and stable production, especially if the product requires a large amount of skilled labor in its manufacture.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

MONEY DEPOSITED during the first three business days of any month will draw interest from the first of that month, if left until the end of the quarter. The quarters begin with the first days of March, June, September and December. Deposits may be withdrawn on the last three business days of a quarterly period without loss of interest.

THE RATE OF INTEREST is determined at the close of each six months from the actual earnings for that period and at the highest rate which such earnings will in the best judgment of the Board of Trustees allow.

INTEREST IS CREDITED to accounts December 1st and June 1st, and if not withdrawn will bear interest as a deposit.

THE PASS BOOK must be presented for depositing or withdrawing

MONEY TO LOAN on bond and mortgage.

DEPOSITS OF ONE DOLLAR or of any larger sum, not exceeding in the aggregate Seven Thousand Five Hundred Dollars from any one depositor may be received, exclusive of interest.

THE BANK is open daily, holidays excepted, from 9 A.M. to 3 P.M. except Saturdays, from 9 A.M. to 12 o'clock noon. Open Saturday evenings from 5.00 to 8.00 P.M. to receive deposits.

NATIONAL ADVERTISERS

are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the City Directory. Put "See the City Directory for our local agent" on all your advertising, and see to it that he is listed under all the classifications in your line.

LOCAL ADVERTISERS

will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

ANNOUNCEMENT EXTRAORDINARY

NEW ADJUSTABLE SPRING SASH BALANCE

GUARANTEED FOR THE LIFE OF THE BUILDING

This new invention is the most radical and important improvement in Spring Sash Balances for double hung windows in the past 40 years. A turn of a screw driver will insure permanent, perfect operation of the sash.

Noiseless, easy and smooth operation — no rattling weights, squeaking pulleys or broken cords.

This modern equipment solves the problem of properly hung windows for all time. Windows are used more than any other installation in a building. Don't neglect them when preparing plans and specifications for that new residence. Why not remodel your old fashioned windows.

Economical to install — a comfort and convenience in the home.

YOU CANNOT AFFORD

To miss a full representation in the classified part of the **Directory.** It is a Buyers' and Sellers' Guide and through its consultation thousands of dollars worth of goods are sold annually

Central Library of Rochester and Monroe County - City Directory Collection - 1936

YOU LIKE to Patronize those Concerns Who are in Business to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

IF YOU ARE NOT ADVERTISING YOUR BUSINESS IN THE DIRECTORY, MAY WE EXPLAIN HOW AND WHY IT WILL PAY YOU.

The A-B-C of Insurance

Against Business Loss Means That You Must be listed In The Great and Only Real Buyers Guide—The City Directory—The Publication That Lists Them All.

If you are not Properly listed you are missing the opportunity that is presented to every business concern to become a stockholder in this great enterprise on a co-operative basis. The dividends are the service and low prices. It is the greatest illustration of the socialistic principle of doing business that there is in our modern society. The City Directory is the book of the people and places every individual in the city on the same basis. This gives the small business the same opportunity as the large business—a truly democratic principle and a rare one today.

Give this matter your careful attention and be listed in the Great Information Bureau of the City where it can be instantly located. It is a card index system of the city with four different ways of indexing and nothing with a name and address exists that cannot be readily found by any person who knows their A-B-C's.

Are You Leaving A Record For The Future?

It may prove a serious matter in years to come if by any chance you should be incorrectly listed in or left out of the City Directory. Cases have occurred where the evidence of the City Directory, as to residence or occupation, has had an important bearing on the disposal of a fortune. Business men, especially, should see to it that their firm's record is absolutely correct and all changes should at once be reported.

"Better Be Safe Than Sorry"

A small amount invested will list you under several lines of your business.

ROCHESTER'S GERMAN DAILY

ABENDPOST

is an evening daily newspaper delivered directly into the homes in all sections of the city and suburbs. It is a

HOME NEWSPAPER

carefully read by the large German population of Rochester and surrounding towns.

FROM COVER TO COVER

The contents of the City Directory are interesting, valuable and useful.

A complete catalog of the city; it's government, social and fraternal organizations, inhabitants, and industries. Carefully compiled annually

You Cannot Sell

Your merchandise through newspaper advertising in homes where the newspaper you are using does not go.

That is why successful, growing, money-making stores use the Democrat and Chronicle.

To make money from your advertising, ***demand*** detailed A. B. C. Audit circulation figures from your newspapers and use the newspapers which can carry your selling messages into the largest number of homes. Remember, that every 5,000 average homes in New York State spend $14,534,500.00 each year.*

Alert advertisers are now demanding catalogues that are more than a mere listing of their products; they want books that are *sales forces*—that present the same well-planned sales arguments that the star salesman uses. We are serving a large clientele with this effective type of sales medium; and we can be of help to you also.

A Public Service Publication

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. **Put—"We are listed in the directory"** in your copy. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit

PARTY LINE TELEPHONE RULES

When making a telephone call, remove the receiver and listen. If the line is in use, replace the receiver immediately and wait for a few minutes before trying again.

The length of a conversation should in no case exceed five minutes, and you are requested to make it as brief as possible. Allow an interval of a few minutes to elapse before calling another party, as someone on your line may be waiting to make an emergency call.

Do not tolerate anyone to listen at your telephone when the line is in use.

ROCHESTER TELEPHONE CORPORATION

When you want to know how to spell a word you look in the dictionary. When you want to know how to spell a name or get a correct address you look in the directory which is the business dictionary of your city. Your Advertisement properly displayed in the directory of your city will register your products or services in the mind of the prospective customer and get results.

ROCHESTER GENERAL DIRECTORY

1936

Copyright, 1935, Sampson & Murdock Co., Inc., Boston, Mass.

Wife's Name—Appears in parenthesis following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying during the past twelve months, is recorded against the name in the present book.
