How to Use the Directory

The City Directory is really a cooperative catalog of the inhabitants, business interests, and institutions of the City. But the very mass of the information contained, until one learns how to use it, may appear to be an obstacle to those unfamiliar with its arrangement.

Chambers of Commerce receive thousands of calls for information, many of which might be answered with a saving of time to all concerned by a simple reference to the Directory, if inquirers thought to look there first. At the suggestion of one Chamber, the following list of typical questions which can usually be answered by referring to the Directory, was drawn up. It is interesting, educational, and should help users to get more value from the Directory.

How Many Changes in a Year?

Out of every 100 People listed in last Directory—

16% to 18% move away, or die

New People, equal to 17% to 19% move into town, or reach listing age

26% to 29% more change their address, or their jobs, or some other vital fact that affects their listing

59% to 67% of the People listed have new information in some particular, which can be surely found only in the NEW DIRECTORY

Note: These figures are from repeated checks in numerous cities, and do not vary 5% in any year

These people are your Customers
That is why Directories are made

THE ROCHESTER DIRECTORY

For the year ending November 1

1938

Alphabetical Section (Page 37) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business or are employed, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Classified Business Finder (Page 169) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive house, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Reference Department (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Street and House Directory (Pink Section, Page 1155) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. The Streets are arranged in alphabetical order and show the ward in which they are located. The symbol @ following a name in this section indicates that the house is owned by the person listed or by some member of the family.

Miscellaneous Information (Page 12) Organization of City Departments, giving officers and salaries,—Railway stations,—Societies, Institutions, etc., with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Population tables, etc.

**Police Department:** Has 430 men with six precincts.

The Rochester Chamber of Commerce will furnish any additional information on request.
Rochester's history is in part the chronicle of the famous Genesee Country of Western New York. The settlement of the city, its remarkable growth from a little community of 100 acres into the third largest city in the Empire State in a little more than a century, is due almost as much to the natural advantages of this section of the state as it is to the enterprise of the hardy pioneers, who, in the early years of the nineteenth century, started the little village of Rochester upon the path of progress.

This village was incorporated as Rochesterville in 1817, changed its name to Rochester in 1822, and became a city in 1834. The city had grown from a settlement of 100 acres in 1811 to a thriving community in 1834, comprising some 4,000 acres, with a population of more than 14,000 persons.

The Erie canal, opened at Rochester in 1823, and completed two years later, played a conspicuous part in building up the commerce of Rochester and in developing the resources of the Genesee Country. In 1827 there were listed more than 100 manufacturing concerns, and even at that early date there was a constantly increasing demand for Rochester-made products, large shipments going east and west via the canal each week.

In the years since its incorporation as a city in 1834, Rochester has enjoyed a remarkably uninterrupted growth. When the opening of the west resulted in the removal of the milling interests from the city, the enterprise of its citizens resulted in the establishment of other lines of industry.

Many special advantages are offered by Rochester to the homeseeker and to the business man. It is a city with picturesque surroundings, set in the heart of the fertile Genesee Valley at the point where the river takes a drop of more than 300 feet in a series of three falls, and thus presents an ideal combination of industry and agriculture. The city occupies a strategic position from the standpoint of transportation, so that raw materials are easily and cheaply obtained and finished products promptly distributed. The city owes its location to the power generated in the Genesee River. The development of this power, originally used to cut logs and grind corn, has made Rochester an industrial city of note whose products are known in all parts of the world.

In its growth the city has lost few of its original charm and has taken on all the advantages of a large city. Rochester is located in the largest agricultural county in New York State, a county which ranks well up in point of productivity with any in the country. Monroe County totals a population of 423,881, and a circle drawn with a radius of 80 miles from Rochester embraces a population of nearly two million.
Known first as the Flour City because of its extensive milling interests, the city's cognomen was later changed to the Flower City because of the extensive horticultural interests which were developed. With the growth of industry on a large scale, the city became known as the city of varied industries and took as its slogan "Rochester Made Means Quality." Rochester boasts many famous industrial organizations and leads the world in the production of a number of products.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It is a leader in telephone apparatus, paper box manufacturers and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.
Rochester had 935 manufacturing establishments in 1929, producing 325 separate commodities. Each of these concerns manufactured goods valued at more than $5,000 annually. The investment in plant building and equipment was $297,586,481, whereas, the annual wages and salaries approximated $113,504,923. Rochester is the world's headquarters for photographic goods and supplies. It ranks fourth in the production of women's shoes and has the same rank in the production of men's clothing. The production of shoes each year is valued at $20,000,000, and the clothing output is valued at $50,000,000. In 1927 Rochester out of twenty leading American cities ranked first in the percent of wage earners (15.6%) to total population.

From 1923 to 1927 Rochester industries showed the greatest percent increase in the number of employees, stood second in the growth of wages paid, and rated third in the percent growth realized in manufacturing output, as compared with thirty leading American cities.

GENESEE VALLEY PARK

One of the outstanding features of the city is its park system which includes five large and twenty-eight small parks containing 1,777 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 474 acres; Edgerton (Exposition) Park has an area of 42 acres, contains eight large practical and beautiful buildings.

Because of the high grade of workmanship demanded in most of Rochester's industrial organizations, Rochester boasts an unusually large percentage of skilled mechanics. This means that wages are good, a situation which is reflected in the large proportion of home-owners found in this city. More than 42% of Rochester's dwellings are owned by those who live in them, which puts Rochester among the first ten cities of the country in this respect.

From a transportation point of view the city enjoys many advantages. Many of the articles manufactured in Rochester are of a specialty and technical nature. The outbound freight business from Rochester, therefore, is largely made up of less than carload shipments. As a result of this immense tonnage, the city undoubtedly has the best distributive service of any city this side of the sea board.

Rochester is served by five important railroads, three inter-state bus lines, the New York State Barge Canal, and steamship lines operating on Lake Ontario. Improved highways leading east, west and south, enable any type of merchandise and produce to be transported to adjacent cities by motor truck. The city possesses modern aviation facilities in its municipally-owned airport. These factors have made Rochester one of the outstanding cities in the country in point of transportation service and facilities.

It is estimated that 9,000 people enter and depart from Rochester each day over the city railroads, which run approximately 150 passenger trains daily. In addition to this, about 4,000 people are handled daily by busses operating in and out of the city.

High-grade freight service from Rochester to all destinations is rendered by the railroads entering the city. The Barge Canal is an Important factor in the transportation service of Rochester. A large modern freight terminal and warehouse constructed by the state of New York at the dockside of this inner harbor, which is about two miles in length, and located in the heart of the business district, is equipped to handle almost any amount of freight.
In its new subway, Rochester has all the advantages of a highly modern joint transit railroad facility. This important traffic artery operated by electricity, provides expedited passenger and freight service for a large portion of the city, at a cost of more than $12,000,000. Rochester has utilized the right of way of the old Erie Canal, passing east and west through the very center of the city, which has been abandoned in favor of the New Barge Canal, south of the city.

That there is an unusual opportunity for industrial development along the rails of the new subway is obvious. Many desirable sites are available throughout the nine miles of the line. West of the city a vast territory may be readily opened up to new industries.

All industries of Rochester are located in what is known as the Rochester reciprocal district. Cars in-bound by any route, can be spotted on the sidings of industries within the switching territory free of any additional expense. In other words, cars are spotted in the industries or forwarded thenceon the basis of no greater cost than the flat Rochester rate. In the harvesting season hundreds of carloads of peaches, pears, grapes, apples and other fruits are shipped out of Rochester and surrounding territory.

Rochester is but an over-night's ride from New York, Washington, St. Louis, Cincinnati, Cleveland, Detroit, Toronto, Boston, Montreal and Chicago. This gives fast service in obtaining coal and raw materials and in the distribution of finished products.

National advertising of many of the large industrial organizations has helped to keep Rochester and its products before the world. Goods from Rochester factories are found on the counters of merchants in all the states of the union and in many foreign countries.

About 40,000 horsepower of electricity is developed from the Genesee River and plans have been made for the development of many times this amount by the damming of the Genesee at Portage.

Rochester has one main Post Office with sub-stations located in various parts of the city. Mail is distributed by a force of over 250 letter carriers.

The Rochester airport, a municipally-owned and operated flying field, is located four miles southeast of the center of the city and approximately one-half mile southwest of the city line. The airport is on the Scottsville road, an improved state highway, and is easily accessible by automobile. Trolley cars operate to within one and one-half miles of the airport and passenger busses pass by it.

The field is rectangular in shape, and contains 110 acres. The surface of the field is sod. Natural and tile drainage insure an adequately dry surface at all times.

In addition to two main runways, 1,500 feet and 1,000 feet in length, respectively, there are two cross-wind runways, each 1,000 feet long. All the landing strips are of stone base and cinder top. Grading of the entire field is being completed and will result in an "allway" field.

One morning and two evening newspapers, as well as one German evening daily and several other foreign language weeklies, are published in Rochester. The total circulation of the three English daily newspapers is over 200,000.

The trading area covered by these papers, extends at some points to a distance of about 60 miles. Within this radius the influence of Rochester as a business and cultural center is well demonstrated by the large circulation of its newspapers.

Rochester is a city of homes, and its clean, tree-lined streets, well maintained by efficient city departments, give a feeling of liveliness and friendliness to the city that is not to be surpassed in any community of its size.

Wise and far-sighted city zoning has confined industry to certain areas of the city in juxtaposition to districts providing workingmen's houses.

The industries of Rochester are, for the most part, of a light manufacturing variety, and consequently, the city is unusually free of smoke and other nuisances.

Workingmen's homes can be bought or rented at very favorable rates, and there is available a supply of good, clean living accommodations for all classes of people.
MEMORIAL ART GALLERY

Connected with the University is the Memorial Art Gallery, which offers facilities for college work in art, as well as for public exhibitions. The gallery embraces a children's museum, with a classroom for educational work with children, and a Little Theatre with a seating capacity of 300 persons.

MAGNOLIA TIME—OXFORD STREET

Rochester has two lake-shore city-owned bathing beaches, embracing over a mile of lake front, together with other out-door and indoor pools. Bath houses are also maintained in convenient sections of the city.

Strictly speaking, the libraries of the city are not part of its recreational facilities, but, nevertheless, they provide opportunities for profitable use of spare time. Branch libraries are situated in various parts of the city for the convenience of the public.
Rochester has a total of 41 theatres and auditoriums of which 33 are devoted to motion pictures, with a total seating capacity om 48,500. The famous Eastman Theatre, which is an outstanding architectural achievement, has a seating capacity of 3,500, and provides seasonal musical events by world's famous artists.

International League baseball is provided through a local team, with a modern concrete stadium seating over 18,000.

Rochester is a livable city, and possesses many characteristics conducive to the well-being of the individual.

The spirit of progress in Rochester, have been well exemplified in Civic affairs as well as in Industrial Development. Seldom can one find a community more keenly aware of its Civic duty or more willing to co-operate in movements to achieve those things which are essential to the progress and prosperity of the city.

Rochester occupies a strong position among cities in its class, and the diversity of its manufactures should enable practically any class of industry to achieve economic and stable production, especially if the product requires a large amount of skilled labor in its manufacture.

Additional duplicate receipts may be obtained upon payment of 1 cent each.

AIDS TO PROPER MAILING
Write name and address plainly and completely.
Place name and address of sender on all matter.
Prepay postage fully on all letters and parcels.
Always address mail for city delivery to street and number and request correspondents do the same.
Use designation North or South, East or West when it is the proper part of the address and save delay in delivery.
Insure valuable parcels.
Write parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

EXTENSION OF TRANS-PACIFIC AIR MAIL SERVICE

YOU LIKE to Patronize those Concerns Who are in Business to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

IF YOU ARE NOT ADVERTISING YOUR BUSINESS IN THE DIRECTORY, MAY WE EXPLAIN HOW AND WHY IT WILL PAY YOU.

SAMPSON & MURDOCK CO., Inc.

Directory Publishers for 90 years

179 LINCOLN STREET .. BOSTON, MASS.
Why the City Directory first. It saves time. The ads are classified. Your customers find you instantly. It's the logical place for them to go because it's an index to the city and can be found in libraries in the principal cities of the United States and in Canada, besides in the offices of many of the important business houses throughout the world.

Beat Them To It - By Advertising in the

CITY DIRECTORY

Thousands upon thousands will consult it for a whole year. The price of space is so small, compared with the valuable publicity you get, that you can't afford to be left out.

ROCHESTER DIRECTORY

REFERENCE DEPARTMENT

Where more information than is possible to give under the classified listings is placed on file for buyers reference. The value of this department is inestimable. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information.

WARNING!

"He Was a Stranger and He Took Me In"

Unknown solicitors representing various questionable publications take at least $100,000.00 from Rochester business and professional men annually.

These publications include many one time directories and business indexes which are unauthorized by organizations which the solicitor claims to represent. They are of no value to anyone except the promoter.

Included in a list of over one hundred on file in this office, are the following classifications:

- Travel and Hotel Directories
- Railroad Employees' Journals
- Buyers Commercial Register
- Sellers Reference Guides
- Buyers Classified Guides
- Trade Indexes
- Business Guides
- National Reference Guides
- N. Y. State Business Directories
- Industrial Directory
- Sheriff's & Police Officer's Directories

Before paying for advertising in out-of-town directories represented by strangers, verify your signature and check the source of the order. Before You Sign, Phone this office for a report on the publication. Our information costs you nothing and may save you much—if you

New PULLMAN Adjustable Sash Balance
A Half Century of Progress
The most radical and important improvement in Spring Sash Balances in forty years. An ordinary screw driver makes the adjustment without removing the Balance or Sash. *Re-adjustment is possible at any time to permanently maintain a perfectly balanced window. All pressed steel construction - light in weight and non-breakable. All working parts are entirely encased so that no foreign matter can penetrate inside the housing and interfere with free action of the moving parts. No pulleys, weights or cords. Double hung opening completely installed in 10 to 15 minutes. Now guaranteed for the life of the building.

Send for catalog showing complete specifications and architectural details
PULLMAN MFG. CORPORATION
Established in 1886
1170 UNIVERSITY AVENUE Cor. Culver Road - ROCHESTER, N. Y.

DON'T KNOCK — BOOST!

SELECTED

If you want to live in the kind of a town,
Like the kind of a town you like,
You needn't slip your clothes in a grip
And start on a long, long hike.
You'll only find what you left behind,
For there's nothing that's really new;
It's a knock at yourself when you
knock your town,
It isn't your town—it's You—

You Cannot Sell

Your merchandise through newspaper advertising in homes where the newspaper you are using does not go.

That is why successful, growing, money-making stores use the Democrat and Chronicle.

To make money from your advertising, demand detailed A.B.C. Audit circulation figures from your newspapers and use the newspapers which can carry your selling messages into homes of a class that have the most money to spend with you. Remember, that every 5,000 average homes in New York State spend $14,534, 500.00 each year.*

Alert advertisers are now demanding catalogues that are more than a mere listing of their products; they want books that are sales forces—that present the same well-planned sales arguments that the star salesman uses. We are serving a large clientele with this effective type of sales medium; and we can be of help to you also.

PARTY LINE TELEPHONE RULES

When making a telephone call, remove the receiver and listen. If the line is in use, replace the receiver immediately and wait for a few minutes before trying again.

The length of a conversation should in no case exceed five minutes, and you are requested to make it as brief as possible. Allow an interval of a few minutes to elapse before calling another party, as someone on your line may be waiting to make an emergency call.

Do not tolerate anyone to listen at your telephone when the line is in use.

ROCHESTER TELEPHONE CORPORATION

LOCATED on West Avenue, three blocks from Genesee Street, Taylor Instrument Companies is the world's largest manufacturer of temperature instruments. Here Rochester workers make thermometers, barometers, gauges, compasses and hundreds of other instruments that are included in the well-known Taylor and Tycos line of products. We are always ready to serve your needs whenever you require accurate, dependable equipment for your home, your office or your factory.

The Home of Good Directories

COMPILING DEPARTMENT

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Our experience of over eighty-five years—our reputation for accuracy, our large force of experienced help and our complete equipment for the work, all guarantee the best in directory compilation.

ADVERTISING DEPARTMENT

Put—"We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly registered in all branches of its industry is wise. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Ask Sampson & Murdock Company about the City Directory, the book of many uses.
Wife's Name—Appears in parentheses following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying during the past twelve months, is recorded against the name in the present book.

How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day, they would use it in their personal as well as business affairs.

Well, now—doesn’t it concern you? It has your name, business and address correctly listed, where your friends, looking for you, will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the “Selling Section.”

It tells how all the streets run, giving numbers at corners; the clearest map of the City; Buildings, Government, Societies and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of “Who and Where” information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. But be sure you use the latest, as an old edition will mislead you.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising suggests wants and creates desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants when he wants to buy.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as in this book.

A Help to You

In your buying, use the lists in this book. If you see a name in heavy type it is because that concern thought enough of your possible business to make it easy for you to find them. If it says “See page — —”, you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the “Selling Section” that will really help a buyer, and point to you as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you now how little it costs to be protected.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Consult Your Directory

Accurate Information is worth all it costs.

ROCHESTER
HOUSE AND STREET DIRECTORY

Names of householders and business places arranged in numerical order upon their respective streets. The streets are arranged in alphabetical order; on streets that are not numbered ciphers are used in place of a street number. Intersecting streets are shown in bold face.

Business places are denoted by business being given. In business blocks the occupants are arranged by room number where practicable.

When householders are located at the cross of streets, it is shown by an abbreviation in italics.

House numbers are in ordinary type, business numbers in bold face, room and apartment numbers in italic.

Street numbers begin at the end of the street nearest the centre of the city. Even numbers are upon the north or east side of streets. Odd numbers are upon the south or west side of streets.

AFTER each street the car or bus line running through or nearest to it is named.

* An asterisk following a number indicates improperly numbered.

A HOME OWNERS AND TENANTS DIRECTORY — a valuable feature showing which houses are owned by the occupants. The symbol, @, following the name of a householder indicates that the house is owned by the person listed, or by some member of the family.

This information is received as compiled by the publisher and is not guaranteed to be correct.

Abbreviations: — a, alley; bl, avenue; bld, boulevard; ct, court; e, east; fr, from; h, house; n, north or near; pl, place; rd, road; s, south; sq, square; st, street; sum, summer residence; ter, terrace; w, west; wd, ward.

Locating Missing Heirs
Finding Lost Persons

This is only one of the many offices that a modern directory successfully fills

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

[Association of North American Directory Publishers logo]

— thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
