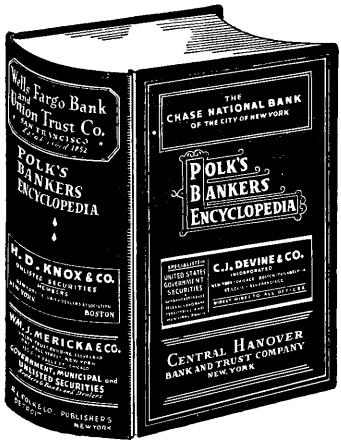
Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.



And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

THE ROCHESTER DIRECTORY

For the year ending November 1

1939

Containing

Alphabetical Section (Page 289) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business or are employed, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

Classified Business Finder (Page 145) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "Buyers' Guide."

Buyers' Guide (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Street and House Directory (Pink Section, Page 1155) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. The Streets are arranged in alphabetical order and show the ward in which they are located. The symbol © following a name in this section indicates that the house is owned by the person listed or by some member of the family.

Map (inside back cover) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

Miscellaneous Information (Page 12) Organization of City Departments, giving officers and salaries,—Railway stations,—Societies, Institutions, etc., with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Population tables, etc.

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spte of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewrter; you may use a quill pen for your correspondence if you so desire; it is your privilege b be without insurance, or the latest directory If you wish you may still use a mailing listthat was old when grandfather was a boy.

If the results are not entirely satisfatory, it is up to you.

Some firms prate wisely of business effiency and then lose time and money sendig to wrong addresses culled from an out-o-date directory. Rather than spend the few ollars necessary to insure themselves being prperly listed under all the headings applicable t their business, they run the risk of letting theicompetitor get their trade. They save th first cost and waste postage stamps by thgross.

Would you improve on old methods? Then phone or write at once for particulars t

ORGANIZED TO PREVENT LOSS

●

THE BUREAU was founded fourteen years ago by the Ad Club of Rochester and receives its support through voluntary membership subscriptions. The firms and individuals who believe that "Honesty is the Best Policy," and know that correct advertising will place business on a more substantial and permanent foundation, subscribe in proportion to their business interests.

The fact that a business firm is not a member of the Better Business Bureau and does not subscribe to its work is not necessary proof that that organization does not believe in "Truth in Advertising and Integrity in Business," but when you know that the firm you deal with is a member of the Bureau, you know that the members of that firm are interested in your welfare to a degree that they are willing to financially support an organization which considers your protection one of its main objects.

The Bureau is incorporated and governed by a Board of Directors consisting of 21 well-known business men, each representing a responsible business firm.

The Bureau is a non-profit organization affiliated with more than 50 other Bureaus throughout the United States and Canada; it is an independent organization for your benefit and protection and its services are free to the consuming public. It protects your interests, helps to maintain confidence in representative business institutions of Rochester and makes this city a safe place in which to buy.

THE BUREAU HAS NOTHING TO SELL

The voluntary membership of the Bureau includes all Newspapers, Broadcasting Stations, Banks, Financial Institutions, and other business firms including Manufacturers, Retailers, Insurance, Professional and Service groups.

Business interests and the public depend upon the Bureau for FACTS.

The Bureau is NOT affiliated with ANY LOCAL ORGANIZATION OR PUBLIC OFFICE.

A Half Century of Progress

The most radical and important improvement in Spring Sash Balances in forty years. An ordinary screw driver makes the adjustment without removing the Balance or Sash. *Re-adjustment is possible at any time to permanently maintain a perfectly balanced window. All pressed steel construction – light in weight and non-breakable. All working parts are entirely encased so that no foreign matter can penetrate inside the housing and interfere with free action of the moving parts. No pulleys, weights or cords. Meet The Folks

who buy four-fifths of everything that's sold to Rochester families.

No matter what line you're in . . . regular readers of the Democrat and Chronicle buy four-fifths of your merchandise or services.

Metropolitan Rochester has 89,000 families. 73,000 of these families make it a point to get the Democrat and Chronicle every Sunday. Rochester families read the Democrat ***every day,*** too. And a big proportion of them buy a lot more per family than the ***average*** in Rochester, New York State, and the United States.

We invite you to meet these folks, through the advertising columns of this 106-year old newspaper.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

The Sign Over Your Door

is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way

If you could put a sign where everyone could see it would it interest you?

The City Directory

is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out
