**Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?**

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

*"Fly-by-night," "fire-sale" and other temporary or "get-rich-quick" concerns rarely appear in the City Directory.*

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising is profitable. In connection with the classified business headings it is doubly effective.

***May we explain how and why it will pay you?***

# THE ROCHESTER DIRECTORY

For the year ending November 1

## 1939

Containing

**Alphabetical Section** (Page 289) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business or are employed, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addressee of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

**Classified Business Finder** (Page 145) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "Buyers' Guide."

**Buyers' Guide** (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

**Street and House Directory** (Pink Section, Page 1155) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. The Streets are arranged in alphabetical order and show the ward in which they are located. The symbol © following a name in this section indicates that the house is owned by the person listed or by some member of the family.

**Map** (inside back cover) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

**Miscellaneous Information** (Page 12) Organization of City Departments, giving officers and salaries.—Railway stations.—Societies, Institutions, etc., with officers.—State officers and departments.—U. S. officers and departments.—Courts holding sessions in the city, with terms, officers and salaries.—Population tables, etc.

# Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

*If the results are not entirely satisfactory, it is up to you.*

---

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost and waste postage stamps by the gross.

*Would you improve on old methods? Then phone or write at once for particulars to*
