Rise and Walk

HERBERT N. CASSON, *Editor, Efficiency Magazine, London, England*
Sends a Message to America

You are depressed. You think you are crippled. You are afraid of the future. You are full of fears.

You have half the gold in the world and half of the machinery and most of the automobiles and all the skyscrapers.

You have the greatest home market in the world and the largest corporations that the world has ever seen.

You are ruled more by ideas and less by tradition than any other people in the world. You have usually done what you thought you could do.

How can it be possible that a progressive nation of 120,000,000 people can be wrecked by the speculations of a little handful of fools in Wall Street?

The prices that were forced too high had to come down. Today all the prices are too low.

There is now a golden opportunity for every man who has eyes to see it.

Dollars are now being sold for 30 cents. Practically every security in the United States is now being sold at less than its value.

The way to create a fortune is to buy from pessimists. Pay your money and take the risk.

Frick started his career by buying coke ovens in the slump of 1873. Carnegie made \$300,000,000 by buying steel plants in the slumps.

Hundreds of fortunes have been made by buying from pessimists. Ye gods! What a chance there is at this moment!

In five years from now most American business men will belong to the "I Wish-I-Had-Club."

Then it will be too late to buy a dollar for thirty cents. The opportunities will be gone.

When a horse balks, the balk is in his head, not in his legs. He moves on when he thinks he will.

And when an American business man is depressed, the slump is in his head. There is nothing serious to prevent him from making money if he thinks he will.

When fear rules the will, nothing can be done, but when a man casts fear out of his mind, the world becomes his oyster.

To lose a bit of money is nothing, but to lose hope—or lose nerve and ambition—that is what makes men cripples.

This silly depression has gone on long enough. Get rid of it. It is inside of you. Rise and walk.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1,067,500$$

**CONSULTATIONS OR CIRCULATIONS
CONSULTED**

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.

INFORMATION

in the mass seems like a dull proposition but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use of it however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much.

In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

LETTERS

Sales Letters: Letters, because their real object is to appear as personal messages and not advertising, are the most difficult form of advertising to prepare, and should always be done by trained minds. Our Sales Promotion Department has a splendid record for successful letters.

Processed Letters: Our Kier Processed Letters are exactly like good individually typed letters. A new process you'll be interested in.
