Notice of Renumbering Town of Irondequoit

Owing to the fact that some of the houses in Irondequoit are not numbered, and in other cases several houses have the same number, it is deemed necessary that some uniform system be established. In some cases this means that the present house number will need to be changed where the wrong number has been used, and in cases where the house has had no number, a number is designated.

The Post Office has requested that the following suggestions be observed by property owners in placing numbers.

Numbers should be placed in plain view from sidewalk, preferably about six feet above ground near to or over entrance and as close as practical to street where they are more likely to be lighted at night by street lights. Figures at least two inches or over in height are recommended in black on white, or similar contrasting colors.

On account of our house numbering being a problem for many years, I urgently ask you to co-operate with the above recommendations wherever possible.

Very truly yours,

THOMAS E. BRODERICK, Supervisor
Town of Irondequoit

***New numbers are used in this edition
of the Directory***
