Locating Missing Heirs Finding Lost Persons

*This is only one of the many offices that a modern
directory successfully fills*

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.
