PUBLISHERS NOTICE

In presenting the 1921 issue of the Geneva City Directory we wish to express our appreciation to those who by their words of encouragement, patronage, and co-operation in the way of giving information made it possible to carry through the work to its completion.

A complete canvas of every building in the city was made by experienced persons who do nothing else the year around.

We wish to call attention to the fact that owing to the length of time since the last edition it was unusually difficult to locate those whose present abiding places were unknown at residence given in the last directory and that to avoid possible omissions because of this a third canvas was taken in search for these missing persons.

Hereafter this publication will be issued annually at a certain time in the year, exact date to be announced later. By this system a fairly up-to-date directory will be available at all times. The publishers would appreciate any suggestions that would increase the value of this directory.

At the suggestion of prominent citizens a complete census of the population was taken with the result that 15,362 names were recorded. This is 714 more than the Government census. It is probable that with the same industrial conditions as obtained a year ago that fully 16,000 persons would have been located. As is well known there has been an exodus of unemployed back to the farms and this applies to Geneva as well as other cities.

That information about Geneva will be diffused all over this section of the United States through the medium of this Directory is something the importance of which should not be overlooked by the business men and property owners. The compilers of this publication are members of the Association of North American Directory Publishers and through this Association the Geneva Directory will be exchanged with other cities. A Directory Library will be installed at the Chamber of Commerce rooms for the free use of the public.

THE GENEVA DIRECTORY CO., Publishers.

The importance of how to use a City Directory is more fully realized by the most successful people. It creates self confidence when a person feels that they can take advantage of this great information bureau, to be found for the asking at all first class stores, offices and manufacturing plants. No one gets lost who knows how to use a City Directory properly.

There are many ways of spelling some names with practically the same pronunciation or near enough to easily cause confusion as shown by the following :

Street and House Directory

Copyright 1921 by Geneva Directory Co.

Showing the location of streets, giving residences and business places with street numbers arranged in numerical order. - The streets are arranged in alphabetical order and the intersecting streets are given at the proper number where they intersect, begin or end. Names are given of all business houses and householders. In cases where the streets are not numbered the names of householders are arranged in alphabetical order. The word vacant after a name signifies that the house or business place was not occupied when canvass was made. In the new system of numbering, Exchange and North streets are the dividing lines. On all streets numbering east and west, No. 1 begins at the point nearest Exchange street. On streets running north and south No. 1 begins at the point nearest North street. The odd numbers are on the left hand side as one advances with the numbering. In the resident portion the name of the head of the house or family only is given.

PARKS, POINTS OF INTEREST, ETC.

Brook Street Playground—Brook Street, 3.24 acres.

Finger Lakes Region—Geologists claim there are only four other sections in the world with same formation and natural beauty as the Finger Lakes of Central New York these are located in Scotland, England, Switzerland and Patagonia. Seneca Lake is the largest and deepest with a length of 38 miles and depth of 600 feet. Cayuga Lake is second with length of 40 miles and depth of 400 feet. Keuka Lake is the wildest of the group, the hills surrounding it drop into its depth not even pausing to form a beach line. Owasco is the lake farthest to the east and is popular for yatching and camps and cottages are numerous on its shores. Canandigua Lake is the smallest with length of 15 miles. Variety is the keynote of the region and the topography most unusual. It is a land of wonderful fertility and prosperous farmers, hill locked lakes, gloomy gorges, waterfalls and wild ravines, and sylvan dells. To the lover of nature an enchanted country and a wonderland of surprises and grandeur. Railroads and very fine highways cross and recross this section making all parts of it accessible to tourists. For camping, boating, fishing and for seekers in the labyrinths of nature it is the great coming vacation ground of the eastern United States. For further information and illustrated literature write Ithaca Board of Commerce.

Glen Springs—Five minutes walk from Watkins Glen. Famous mineral springs. 300 feet above Seneca Lake. Valuable for drinking and bathing.

Genesee Park—Lewis cor Genesee street, 62 acres.

Gulvin Park—Middle street, 9.57 acres.

Lake Front Park—Foot East Castle street.

Loomis Park—Carter rd, 52.62 acres.

Pulteney Park—Main and Washington streets, 85 acres

Seneca Lake—One of the largest of the famous Finger Lakes of Central New York. Thirty-eight miles long and in many places 600

feet deep. It does not freeze entirely over in the coldest winters owing to its great depth. It is the deepest body of water lying wholly within New York state. Seneca Lake trout are worth the efforts of the most accomplished fisherman. Has shores of rolling hills, covered with vineyards and other evidences of the great fertility of the soil. Geneva has a fine harbor at the Northern end and Watkins at the southern making a delightful sail of 37 miles. Only sizable craft can navigate this lake because of the size and depth.

Taughannock Falls and Gorge—Thirty miles south of Geneva on west shore Lake Cayuga. Can be reached by Lehigh Valley Railroad, or by a drive over fine roads. The gorge is several miles long and aside from the smaller falls in the upper gorge it contains the famous Bridal Veil or Taughannock Falls, 220 feet high, the highest straight falls east of the Rockies, not excepting Niagara.

Watkins Glen—This is the most wonderful of the many gorges and glens in this vicinity. Thirty-five miles south of Geneva at the head of Seneca Lake. One of the natural wonders of the world. Reached by state road or by train to Elmira and thence by trolley. It is now a state park.

The Intermediary Between Advertiser and Buyer . . .

A mattress manufacturer was satisfied he had a superior article and appropriated a large sum of money and spent it in advertising country wide. At the foot of all advertisements were placed these words, "Agents in all cities, if cannot locate write us and we will supply his name." Mr. and Mrs. Thomas Jones saw one of these advertisements and were interested. Mr. Jones said:—"My dear, you go down tomorrow and look at one of these mattresses." Mrs. Jones consulted the City Directory at nearest store but did not find information desired. She then went to one of the large furniture stores and Mr. Efficient salesman was on his job. He didn't have the mattress mentioned, "but he had a mattress they had put in in preference to that mattress, a superior article and guaranteed and sold for less money." Mrs. Jones was human and believed the salesman and--the mattress concern who had stimulated their desire to have a nice mattress didn't get the order because it wasn't listed in the market place of the City.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT**. Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on
The Main Street of your City Catalog
for a whole year.

The
Geneva Daily Times

For over a quarter of a century The Geneva Daily Times has been the favorite newspaper in thousands of homes in Geneva and vicinity.

“QUALITY,” That attribute of a newspaper, that indicates the confidence and respect in which it is held by its community, along with “Quantity” make the Geneva Daily Times the home newspaper in this vicinity.

The Geneva Daily Times prints the latest telegraph and cable dispatches, supplemented by those of its special correspondents. The news of Geneva and the various towns in Ontario, Seneca and Yates counties is accurately and promptly published each day.

The Times’ standard in advertisements is a high one. It carries only advertising that is truthful, clean and attractively presented.
