This Institution has been in successful operation for **Forty-Six Years**, and offers unsurpassed facilities for a thorough education in the solids and in the ornamental branches.

TO ADVERTISERS.

The **Ontario Repository and Messenger** is one of the best advertising mediums to be found in this section of the State. Established in 1803, it long since attained a circulation far greater than most country journals in the State of New York, and to the great majority of the business men and families of Ontario County, is "familiar in their mouths as household words." City Merchants who look for trade from this section of the State, would do well to advertise in the *Repository and Messenger*. Address,
