*1925*

THE class of January 1926  
present to you the account of  
another half year in the his-  
tory of our Alma Mater.

May this book serve as a  
mirror to reflect the soft glow-  
ing light of memory on each  
delightful companionship or  
enjoyable incident herein  
chronicled.

WEST HIGH SCHOOL  
ANNUAL  
1926

*I have here only made a nosegay  
of culled flowers, and have brought  
nothing of my own but the thread  
that ties them together.*

—MONTAIGNE.

## *A Parting Thought*

*Our parting day approaches near,  
Dear West High School of ours,  
We leave your halls, with memories dear,  
The world above us towers.*

*We see before us golden-hued,  
A path of life to climb,  
And you've in each of us imbued  
Your spirit, strong, sublime.*

*We know the path is hard and long,  
The goal a changing mist,  
But you will, with this spirit strong,  
Our halting steps assist.*

*We thank you, Alma Mater fair,  
And those to whom we owe  
The knowledge that we'll try to share  
As down life's path we go.*

*Oh, school we love, with spirit free,  
The future now predicts  
An everlasting loyalty  
From Janus '26.*

—CHARLES E. STUART.

## History of the Class of January 1926

*A*T last we have come to the end of our Rainbow, and find, not the Pot of Gold, but that we are Seniors. For four years we have trodden the paths that lead to the mighty portals of our dear old West High. We have wandered through her spacious halls, gazed at her wonderful pieces of art, and are now ready to join the ever increasing line of old grads.

But what has happened during these four long years that has held our interest so as to make these years slip by?

*First.* Miss Cook's frosh final English class decided to do the extraordinary and publish an extra-ordinary paper under the title of "The Frosh Final." It was an exceptional piece of work being an unique way to introduce a class to the school, for this was our introduction. It was entirely successful and an inspiration for the future to do bigger things.

*Second.* Our first social function took place in the form of a masquerade party held on Hallowe'en Night. It was a gay affair, bringing out one of the Three Musketeers, a Sheik and numerous other characters. Last, but not least, a red haired Puritan.

*Third.* Our next big social event was the Junior Dance. This was held in the school corridors which were gayly decorated with orange and black bunting and with the numerous balloons scattered here and there gave it the appearance of a Carnival. Nimble feet kept time to the melodious music sent forth by the "Midnight Serenaders."

*Fourth.* Next came the first appearance of our dramatically inclined. This was at the presentation of the Junior Play entitled, "Where Julia Rules," a sketch portraying the power of the modern over the previous generation. All the feminine roles were portrayed by the June '26 girls, while the boys of the Jan. '26 claimed the masculine parts. The play was a brilliant piece of dramatic talent and was well supported by the student body.

*Fifth.* Upon our return to our Alma Mater this fall we found her redecorated in a very attractive color scheme and the marred and lame statues restored to their former fine physique and good health. All this gave us new spirit and we are now putting unrestrained effort in our newest project, our Senior Play entitled "The Piper," a very difficult piece of work and what we hope to be a very successful one.

Now we are ready to go on to higher work, taking with us some of West High's envied athletes, orators and journalists. We leave dear old West High with never failing memories of her and with sincere hopes for her future success in whatever she attempts.

—WILLIAM CHASE.

## Last Will and Testament

---

**We, the class** of January 1926, of the city of Rochester in the County of Monroe and the State of Absentmindedness and Oblivion, being of doubtful mind and memory, do make, publish and declare this our last WILL AND TESTAMENT in manner following:

*First*—That all our graduation expenses and unjust debts be paid.

*Second*—That it be given to those desirous of popularity or position of bank manager, John A. Whittle's rudy, red, robust and somewhat unstationary complexion.

*Third*—That to those comprising the female population of the West High School, be given the right of ingress and egress to the sacred and honorable north or male entrance.

*Fourth*—That to "Jimmy" Shedd be given Ed Grauel's sangfroid and composure before the student body and special meetings of the Marble Club.

*Fifth*—That to those proud owners of the species recorded as "Forditus a, um" be left those parts necessary to the extermination of rattles, falling axles, and punctures (now obsolete) in order that the weaker sex may be safely and comfortable transported to and from the above mentioned place of intellectual attempts.

*Sixth*—That to those conspicuous pupils, whose persistent scuffling has interrupted many an eighth period slumber, be given a pair of O'Sullivan's heels and Gabriel Snubbers coupled if necessary with a Maxim Silencer.

*Seventh*—That to some one be given our appreciation for the generous supply of paper towels following the first lunch period.

*Eighth*—That to the janitor be given a Welch washable whisk-broom for wiping weeping windows and the privilege of chasing the flippant frosh from the elevator.

*Ninth*—That to the faculty be given our remaining efforts that should have been exposed long before.

*Tenth*—To Coco, Cooper, and other long term residents, the hope of getting out within the next ten years.

*Eleventh*—To the incoming Seniors we leave the "Mystic Order of the Unholy Three," on the conditions that they uphold its traditions, support its by-laws and honor its ideals.

*Twelfth*—To the studious pupils of the students' body we leave several vacant seats in the library.

*Lastly*—We appoint Miss F. Pratt executrix of this our last WILL AND TESTAMENT with free power to auction and give away, lease or mortgage the right of way to Mike's: hereby revoking all former wills by us made.

**In Witness Whereof** we have herewith subscribed our name this day of January 26, in the year one thousand nine hundred and twenty-six.

## January 1926

*To you, West High, we've pledged our loyalty  
Long since, in song and cheers;  
And gladly will our hearts look back to you  
In all our future years.*

*Four years within your ivy-covered walls  
We've met to work and play,  
And many are the things that we have learned,  
To help us on our way.*

*Our class is not so different from the rest,—  
We've had our share of fun,  
And frolic, too; and friendships made,  
And struggles lost and won.*

*Now comes the time for us to part, when each  
His course in life he picks;  
But unto thee, West High, we'll e'er be true,—  
All we of '26.*

—RUTH L. CLARK.

# *The* **SIXTH SENSE of INDUSTRY** **Tycos Temperature Control** If Seeing Was Believing

*I*f seeing was believing in making cutlery the temper of the steel blades would be the same gamble it was before quantity production demanded uniformity of quality.

In the old days the quality of steel blades depended on the eyesight of the man who was tempering the blade. He watched the successive color changes as he held the heated metal in oil. It was his job to "hold" the temper by plunging the blade in water when it reached the color he believed would give the temper wanted.

But after all, the workman was human—and being human his judgment was not always right—and when he misjudged the moment for cooling the steel blade, the blade never gave satisfactory service.

It may have "looked" like a good blade; it may have "felt" like a good blade—but when used it wasn't up to standard.

Modern manufacturing—and selling requires exact uniformity of products. The uncertainty in manufacturing that always exists when the human senses are gambled on can be eliminated by substituting Tycos—the sixth sense of industry.

In making cutlery, bread, phonograph records or anything else requiring exact temperature, Tycos Instruments will give accurate results. Nothing is left to the sense of sight—guesswork is eliminated when Tycos Temperature Indicating, Recording and Controlling Instruments are used.

This sixth sense of industry—Tycos Temperature Control, ensures the uniformity of quality that is absolutely essential to manufacturing on a quantity basis.

How to Take Lecture and Reading Notes.  
Advantages and Disadvantages of Cramming.

etc., etc., etc., etc., etc., etc., etc., etc., etc.

### *Why You Need This Guide*

"It is safe to say that failure to guide and direct study is the weak point in the whole educational machine." Prof. G. M. Whipple, U. of Michigan.

"The successful men in college do not seem to be very happy. Most of them, especially the athletes, are overworked." Prof. H. S. Canby, Yale.

"Misdirected labor, though honest and well intentioned may lead to naught. Among the most important things for the student to learn is how to study. Without a knowledge of this his labor may be largely in vain." Prof. G. F. Swain, M.I.T.

"To students who have never learnt 'How to Study,' work is very often a chastisement, a flagella-

tion, and an insuperable obstacle to contentment." Prof. A. Inglis, Harvard.

"Academic psychology with its highly productive resources gladly owes to these (students) the obligation of giving all it can to make this learning process easier, more pleasant, and in all ways more productive." G. V. N. Dearborn.

Based on well-established principles, "HOW TO STUDY" will show you how to avoid the misdirected effort.

Get a good start and make this year a highly successful one by sending for this handbook, guide, companion, and adviser, at once.
